Re: Hollow Rock RSW Ldf
Director's Authorization
Approval
Residual Solid Waste Landfills
Jefferson County
RSWL018752

**Subject: Hollow Rock Facility, Jefferson County
Ohio Administrative Code (OAC) Rule 3745-30-08(D)(13) Approval**

Dear Mr. Akenhead:

Ohio EPA MAR 8 '19
Entered Directors Journal

On January 29, 2019, the Ohio Environmental Protection Agency (EPA), Division of Materials and Waste Management, Southeast District Office received a document titled *OAC 3745-30-08(D)(13) Demonstration Approval Request for MW-12S* for Hollow Rock Facility (Facility) in Jefferson County, Ohio. This report was prepared by Eagon & Associates, Inc., on behalf of FirstEnergy Generation Corporation (FirstEnergy), and requests that the Director approve reinstatement of the detection monitoring program for MW-12S.

Pursuant to OAC Rule 3745-30-08(D)(13), if the owner or operator determines, based on the results of the sampling required by paragraph (D)(10), (D)(11), or (D)(12) of this rule, that there has not been an increase above background levels of waste-derived constituents at any monitoring well downgradient of the facility, the owner or operator shall request that the director approve reinstatement of the detection monitoring program.

The submitted report concluded that the statistically significant change in chloride at monitoring well MW-12S was not waste-derived. Ohio EPA has reviewed the applicable information and concurs with this conclusion. Therefore, pursuant to OAC Rule 3745-30-08(D)(13), the owner or operator is hereby authorized to return to detection monitoring at the Facility for monitoring well MW-12S.

Should future or existing groundwater sampling results indicate statistically significant changes in groundwater monitoring parameters, the owner or operator will be required to either enter into the groundwater quality assessment monitoring program in accordance with OAC Rule 3745-30-08(E) or obtain approval to remain in the detection monitoring program.

Mr. Eric Akenhead
FirstEnergy Generation Corporation

This approval shall not be construed to release the owner or operator from the obligation to comply with the requirements of any other ground water quality assessment monitoring program being conducted at the Facility.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
30 East Broad Street, 4th Floor
Columbus, Ohio 43215

If you have any questions concerning this letter, please contact Joe Laughery, DMWM, SEDO at (740) 380-5234.

Sincerely,

Craig W. Butler, Chief
Southeast District Office
for Laurie A. Stevenson, Director
