**Re: Huntington Township Landfill
Director's Authorization
Approval
Municipal Solid Waste Landfills
Lorain County
MSWL020665**

Subject: Closed Huntington Township Landfill, Lorain County

Dear Trustees:

Ohio EPA MAR 27 '19
Entered Directors Journal

On April 30, 2018, the Ohio Environmental Protection Agency (Ohio EPA), Northeast District Office (NEDO), Division of Materials and Waste Management (DMWM) received a request to cease explosive gas monitoring for the closed Huntington Township Landfill. The submittal contains information and documentation to support discontinuation of explosive gas monitoring at the facility. The request was submitted pursuant to Ohio Administrative Code (OAC) Rule 3745-27-12(G).

The Huntington Township Landfill (Facility) is a closed municipal solid waste disposal facility located on the west side of Clark Road, south of Bursley Road, and across from 26351 Clark Road, Huntington Township, and in Lorain County. The landfill ceased accepting waste and completed closure in 1988.

Pursuant to OAC Rule 3745-27-12(G), upon finding that there is no significant likelihood of explosive gas formation and migration sufficient to require contingency procedures, the Director may authorize discontinuation of explosive gas monitoring and abandonment of any permanent explosive gas monitors at the Facility.

Ohio EPA has reviewed your request and concurs that, based on monitoring results and the type and age of waste disposed at the Facility, a significant likelihood of explosive gas formation and migration sufficient to require contingency procedures does not exist. Therefore, pursuant to OAC Rule 3745-27-12(G), the owner or operator is hereby authorized to cease explosive gas monitoring at the Facility.

HUNTINGTON TOWNSHIP LANDFILL
DIRECTOR'S AUTHORIZATION
PAGE 2 OF 2

In the future, should Ohio EPA find that explosive gas formation and migration threatens human health, safety, or the environment, Huntington Township Landfill may be required to perform such measures as necessary to abate or minimize the formation or migration of explosive gas at the Facility.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to ORC Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
30 East Broad Street, 4th Floor
Columbus, Ohio 43215

If you have any questions concerning this approval, please contact Stephen Bopple of Ohio EPA, NEDO, DMWM at stephen.bopple@epa.ohio.gov or by phone at (330) 963-1199.

Sincerely,

Laurie A. Stevenson
Director, Ohio EPA
