**Re: ArcelorMittal Cleveland LLC  
Director's Authorization  
Approval  
Industrial Solid Waste Landfills  
Cuyahoga County  
ISWL018762**

**Subject: ArcelorMittal Cleveland Area B Landfill, Cuyahoga County  
Ohio Administrative Code (OAC) Rule 3745-30-08(E)(7) Compliance  
Monitoring Program Approval**

Dear Mr. Kolesar:

Ohio EPA NOV 18 '19  
Entered Directors Journal

On October 31, 2018, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Northeast District Office (NEDO) received a document titled, "Area B Landfill Compliance Monitoring Program Plan to Fulfill the Requirements of OAC 3745-30-08(E)(7)," dated October 2018 for the ArcelorMittal Cleveland Area B Landfill (Facility) located in Cuyahoga County. The document was submitted by Burgess & Niple (B&N) on behalf of ArcelorMittal Cleveland LLC (AMC).

Ohio Administrative Code (OAC) Rule 3745-30-08(E)(7) allows for an owner or operator to request that the Director approve a compliance monitoring program for their facility prior to meeting the requirements in paragraph (F) of OAC Rule 3745-30-08.

AMC is requesting the approval of a compliance monitoring program for the Area B Landfill and has provided a description of the compliance monitoring program in the submitted document that includes the required elements outlined in OAC Rule 3745-30-08(E)(7). A compliance monitoring program is appropriate for the Area B Landfill as ground water underneath and in the vicinity of the Facility is not used and will not be used in the future as a potable water source. The extent of waste-derived constituents is contained entirely onsite and has not affected adjacent landowners, and concentrations of constituents are at such low levels that remediation of the constituents of concern in ground water would not provide a significant reduction in concentration. The Area B Landfill was capped and certified closed in November 1993, which has minimized infiltration of surface water through waste to prevent further ground water impacts in the future.

Ohio EPA has reviewed the October 2018 document and concurs with the request to approve a compliance monitoring program for the Area B Landfill as presented in the document. Ohio EPA has determined that AMC has provided sufficient detail in the compliance monitoring program plan to meet the requirements under OAC Rule 3745-30-

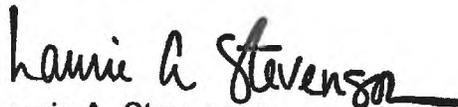

08(E)(7) prior to meeting the requirements under OAC Rule 3745-30-08(F). Therefore, I hereby grant approval of the submitted document containing a compliance monitoring program pursuant to OAC 3745-30-08(E)(7) at ArcelorMittal's Area B Landfill.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
30 East Broad Street, 4<sup>th</sup> Floor  
Columbus, Ohio 43215

If you have any questions concerning this action, please contact Paul Parrish, DMWM, NEDO at (330) 963-1125.

Sincerely,

Laurie A. Stevenson  
Director
