Ohio Administrative Code (OAC) Rule 3745-27-10(C)(7)(g) Approval**

Dear Mr. Blevins:

Ohio EPA JAN 2 '20  
Entered Directors Journal

On October 7, 2019, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Southeast District Office (SEDO) received a document titled *OAC 3745-27-10(C)(7)(g) Requests, Groundwater Detection Monitoring Program*. The document was submitted in accordance with OAC Rule 3745-27-10(C)(7)(g) by Eagon & Associates, Inc., on behalf of Waste Management. The document included a request to update the background dataset representing the background water quality at monitoring wells CMW-3, CMW-7, CMW-8 and CMW-9. This request was made for the Coshocton Landfill (Facility) located at 19469 County Road 7, Coshocton County, Ohio. As noted in the October 7, 2019 submittal, these statistically significant data points will be included in a future revision to the facility statistical analysis plan.

Pursuant to OAC Rule 3745-27-10(C)(7)(g), background data can be added only in blocks of data resulting from the analysis of four or more statistically independent samples after the data have been statistically compared to the current background data and no statistical differences are detected, unless another method is deemed acceptable to the director.

Waste Management has met the requirement for including a minimum of four (4) data points for all constituents and monitoring wells during the observation period. As part of the complete data set, Waste Management is requesting to update the background observation period with 26 data points that were noted to be statistically significant increases, which require approval from the Director.

Waste Management has proposed using the following statistically significant data from monitoring wells CMW-3, CMW-7, CMW-8 and CMW-9 as part of the Facility's background data as listed in Table 1:

You are hereby notified that this action of the Director of Environmental Protection (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action.
