

Mike DeWine, Governor Jon Husted, Lt. Governor Laurie A. Stevenson, Director

February 24, 2021

Janelle McManis Health Commissioner Vinton County Health Department 31927 State Route 93 McArthur, OH 45651 Re: Vinton County Health Department Director's Authorization Approval Health District Partners Vinton County HD8200

Subject: Placement on the director's approved lists Solid & Infectious Waste Programs C&DD Program

Dear Mrs. McManis:

On December 21, 2020, the Ohio Environmental Protection Agency (Ohio EPA) completed its annual survey of your health district regarding your Solid and Infectious Waste Programs and Construction and Demolition Debris Program in accordance with Ohio Administrative Code (OAC) Rule 3745-37-08. The annual survey included the time period between December 13, 2019 and December 21, 2020.

Upon review of the survey findings, I have determined that the Vinton County Health Department is in substantial compliance and I hereby place the Vinton County Health Department on my approved lists of health districts authorized to administer and enforce the solid and infectious waste and construction and demolition debris laws and rules in accordance with Sections 3734.08 and 3714.09 of the Ohio Revised Code.

Additionally, you are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to ORC Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Vinton County Health Department Director's Authorization Page 2

Environmental Review Appeals Commission 30 East Broad Street, 4th floor Columbus, Ohio 43215

I consider our agencies regulatory partners and appreciate the efforts of your dedicated staff. I recognize the extraordinary role your agency has played in addressing the COVID-19 pandemic, and the challenge this incredible response may have had on health district staffing and implementation of your Solid and Infectious Waste and Construction and Demolition Debris programs. If at any time Ohio EPA can provide assistance to support these programs, please encourage your staff to contact Ohio EPA's Southeast District Office.

Enclosed please find a copy of the annual survey evaluation report for your health district, which includes an assessment of administrative activities. Please note that this annual survey evaluation has been modified due to the COVID-19 pandemic, which may have adjusted the survey period and the conventional scope of file review and field inspections. Ohio EPA hopes to resume the normal evaluation procedure for future annual surveys. If you have questions or comments regarding the manner in which our agencies administer these programs, please contact me or Vlad Cica, Chief of the Division of Materials and Waste Management.

If you have any questions concerning this letter, please contact Nathan Johnson of Ohio EPA's Southeast District Office by telephone at (740) 380-5439.

Sincerely,

have a. Hina

Laurie A. Stevenson Director

Annual Survey Evaluation Report

Ohio EPA's Delegation of the Solid & Infectious Waste and Construction & Demolition Debris Programs to Local Health Districts

Health District: Vinton County Health Department Core ID: 134783	Survey Period: Start Date: 12/13/2019 End Date: 12/21/2020	
Secondary ID: HD8200	Ohio EPA Inspector: Nathan Johnson	

Administrative Review

A health district either meets program requirements (Y), does not meet program requirements (N), or requirements are not applicable (N/A). Upon review of health district records and other documentation, Ohio EPA made the following conclusions:

	Solid & Infectious Waste (ORC 3734)		Construction & Demolition Debris (ORC 3714)			
	Y	Ν	N/A	Y	N	N/A
OAC Rule 3745-37-08(C)(1) and (D)(1)			\boxtimes			\boxtimes
Applications for licenses are on file for each licensed solid waste, infectious waste treatment, or Cⅅ facility in the health district.						
OAC Rule 3745-37-08(C)(2) and (D)(2)			\boxtimes			\boxtimes
Applications are properly completed with all required information.	C					
OAC Rule 3745-37-08(C)(3) and (D)(3)			\boxtimes			\boxtimes
All known solid waste, infectious waste treatment, and Cⅅ facilities operating in the health district do hold valid and unexpired licenses.						
OAC Rule 3745-37-08(C)(4)			\boxtimes			
No license has been issued for any new solid waste or new infectious waste treatment facility prior to the director's issuance of required permits and approval of required detail plans.						
OAC Rule 3745-37-08(C)(5) and (D)(4)			\boxtimes			X
Certification of inspection and compliance has been made to the director within thirty days after issuance of any license.						
OAC Rule 3745-37-08(C)(6) and (D)(5)	\boxtimes					\boxtimes
The health district inspects solid waste, infectious waste treatment, and Cⅅ facilities with sufficient frequency to ensure substantial compliance.		2.5				

	Solid & Infectious Waste (ORC 3734)		De	structi emoliti Debris RC 37	on	
	Y	Ν	N/A	Y	Ν	Ń/A
OAC Rule 3745-37-08(C)(7) and (D)(6)						
The health district maintains a file of information relating to each licensed solid waste, infectious waste treatment, and Cⅅ facility throughout each facility's operation and applicable closure periods. Each file includes applications for licenses, certification records, inspection records, approved plans, litigation information (except that privileged by the attorney-client relationship), and other pertinent information.						
OAC Rule 3745-37-08(C)(8) and (D)(7)				\boxtimes		
The health district undertakes appropriate actions against persons whenever necessary to bring about substantial compliance with Chapters 3734. and 3714. of the Revised Code and rules adopted thereunder.						
OAC Rule 3745-37-08(C)(9) and (D)(8)	\boxtimes			\boxtimes		
The health district takes immediate action to abate serious hazards to the public health resulting from violations of Chapters 3734. and 3714. of the Revised Code and rules adopted thereunder.						
OAC Rule 3745-37-08(C)(10) and (D)(9)			\boxtimes			
The health district complies with applicable facility license transfer procedures.						
OAC Rule 3745-37-08(C)(11) and (D)(10)	\boxtimes			\boxtimes		
The health district seeks legal assistance from appropriate state and local agencies as necessary to carry out its assigned responsibilities.						
OAC Rule 3745-37-08(D)(11)				\boxtimes		
Each health district staff person possesses either a registered sanitarian/sanitarian-in-training certificate, the equivalent educational background required, or two years adequate work experience inspecting waste facilities.						
OAC Rule 3745-37-08(D)(12)						
The health district maintains a file of information relating to each exemption and license special term/condition. The file includes a copy of each exemption order issued and each license issued that contains special terms and/or conditions, as well as the health district's written justification for each action.						

Comments:

OAC Rule 3745-37-08(C)(8) and (D)(7):

Ohio EPA determined that the health district undertook appropriate actions against noncompliant persons whenever necessary to bring about compliance. The health district received twenty-four (24) open dumping complaints during the survey period. The health district responded to all complaints in a timely manner. Twelve (12) open dumping complaints have been resolved, four (4) complaints have been sent to the Vinton County Prosecutor for enforcement, and eight (8) complaints have been sent to the board of health for administrative orders. The health district will continue to notify the landowners

of the remaining twelve (12) complaints in writing of observed violations and perform follow-up inspections until violations are abated.

OAC Rule 3745-37-08(C)(9) and (D)(8):

No serious public health hazards resulting from violations of the solid and infectious waste or construction & demolition debris rules were on record for this survey year

Additional Comments:

The health district staff are knowledgeable about the programs and very responsive to complaints and Ohio EPA inquiries. The health district assisted Ohio EPA and contractors at scrap tire cleanup sites within the district during the survey period.

Field Surveys

Due to the ongoing COVID-19 Pandemic, field surveys could not be conducted by Ohio EPA staff.

Facility & Inspection Inventory From: 12/13/2019 To: 12/21/2020					
Facility Name	Facility Type & Minimum Annual Inspection #	Comprehensive Inspections Completed	"Other" Inspections Completed		
Allied Landfill	Closed MSW Landfill (4-30 yrs pcc) (1)	1	0		
Austin Powder Landfill	Closed MSW Landfill (4-30 yrs p-cc) (1)	1	0		

Inspection Summary

The health district performed the required inspections at the closed Allied Landfill and Austin Powder Landfill.

Solid and Infectious Waste Programs Summary

The health district conducted the required inspections within its jurisdiction to ensure compliance with the solid and infectious waste regulations. I observed no deficiencies during the administrative review of the annual survey. The health district appropriately documents violations with a notice of violation letter to the property owner or facility operator detailing any violations, including rule citations and any additional information from the inspection. The health district does request a response on actions taken to remedy or prevent the violation from recurring and conducts re-inspections to ensure that compliance is achieved. The health district effectively manages solid waste complaints and has procedures in place to escalate enforcement if necessary.

Austin Powder Landfill reached the end of the thirty years of post-closure care period on June 1, 2019. In accordance with OAC Rule 3745-27-14, upon completion of the post-closure care period, the owner or operator shall submit to Ohio EPA written certification that the sanitary landfill facility has completed post-closure activities in accordance with rule and the final closure/post-closure plan. Based on Ohio EPA's review of the certification and accompanying documentation, the post-closure care period may either be discontinued or extended. Ohio EPA will engage the health district during this review. The health district should continue performing facility inspections until Austin Powder has submitted a request to discontinue post-closure care accompanied by the required certification and documentation.

and the Director of Ohio EPA has granted the request. During the survey period, Ohio EPA informed Austin Powder of the post-closure date; however, Austin Powder has not yet submitted the required certification and documentation.

It is the role of Ohio EPA to provide oversight and education to the health district in each of the programs outlined in this letter. The health district's ability to recognize, identify and cite violations in all program areas, as well as familiarity with the regulations during all types of inspections is critical to complete thorough site evaluations and enforcement of the regulations. The health district staff periodically called or emailed Ohio EPA's staff for technical assistance within the program areas. Ohio EPA will continue to conduct peer reviews of inspection letters and provide technical assistance to the health district, as necessary.

Construction and Demolition Debris Program Summary

No licensed C&DD facilities exist within the jurisdiction of the health district. The health district continues to investigate C&DD illegal disposal and open burning complaints as they become known. The health district's C&DD program continues to be proactive in the county through complaint investigations

Post-Survey Conference

On December 21, 2020, I held a virtual post-survey conference with Lori Simonton, Environmental Health Director. During the post-survey conference, we discussed the health district's compliance with ORC Sections 3734.08 and 3714.09. I informed Ms. Simonton that, based on my observations during the survey, I would be recommending the health district remain on the director's approved lists.

This Annual Survey Evaluation Report (Report) is for internal use to perform a preliminary assessment of approved health districts. It is not to be used as an indication of a health district's overall compliance with OAC Rule 3745-37-08, which is a determination of the director of Ohio EPA. This Report and any accompanying information will be forwarded to the director for consideration and to determine substantial compliance with Rule 3745-37-08 of the Administrative Code.
