Date:

Laurie A. Stevenson, Director

Ohio Environmental Protection Agency

This permit approval is based upon the record in this matter which is maintained at the offices of the Ohio Environmental Protection Agency. The Director has considered the application, accompanying information, inspection reports of the facility, a report regarding the facility's compliance or noncompliance with the terms and conditions of its permit and rules adopted by the Director under this chapter, and such other information as is relevant to the operation of the facility. The Director has determined that the facility under the existing permit has a history of compliance with ORC Chapter 3734, rules adopted under it, the existing permit, or orders entered to enforce such requirements that demonstrate sufficient reliability, expertise, and competency to operate the facility henceforth under this chapter, rules adopted under it, and the renewal permit.

MODULE A - GENERAL PERMIT CONDITIONS

A. GENERAL PERMIT CONDITIONS

A.1 Effect of Permit

ORC Sections 3734.02 (E) and (F) and 3734.05
OAC Rule 3745-50-58(G)

(a) Wright-Patterson Air Force Base is authorized to store hazardous waste in containers in accordance with the terms and conditions of this Ohio hazardous waste permit (hereinafter "permit"), ORC Chapter 3734, all applicable Ohio hazardous waste rules, all applicable regulations promulgated under the Resource Conservation and Recovery Act (RCRA), as amended, and the permit application. The permit application, as submitted to Ohio EPA on December 23, 2020 and last updated on May 21, 2021, is hereby incorporated into this permit. In the instance of inconsistent language or discrepancies between the above, the language of the more stringent provision shall govern.

(b) Any management of hazardous waste not authorized by this permit is prohibited, unless otherwise expressly authorized or specifically exempted by law. Issuance of this permit does not convey property rights of any sort or any exclusive privilege; nor does it authorize any injury to persons or property, or invasion of other private rights. Compliance with the terms and conditions of this permit does not obviate Permittee's obligation to comply with other applicable provisions of law governing protection of public health or the environment including but not limited to the Community Right-to-Know law under ORC Chapter 3750.

A.2 Permit Actions

OAC Rule 3745-50-58(F)

This permit may be modified or revoked as specified by Ohio law. The filing of a request by the Permittee for a permit modification, or the notification of planned changes or anticipated noncompliance on the part of the Permittee, does not stay any permit term or condition.

A.3 Permit Effective/Expiration Date

OAC Rule 3745-50-54

The effective date of this permit is the date the permit is entered into the Director's Journal. The permit expiration date is ten (10) years after the effective date.

A.4 Severability

The provisions of this permit are severable, and if any provision of this permit, or the

application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.

A.5 Duty to Comply
OAC Rule 3745-50-58(A)

The Permittee must comply with all applicable provisions of ORC Chapter 3734, all applicable Ohio hazardous waste rules, and all terms and conditions of this permit, except to the extent and for the duration such noncompliance is authorized by the laws of the State of Ohio. Any permit noncompliance, other than noncompliance authorized by the laws of the State of Ohio, constitutes a violation of ORC Chapter 3734 and is grounds for enforcement action, revocation, modification, denial of a permit renewal application or other appropriate action.

A.6 Duty to Reapply and Permit Expiration
OAC Rules 3745-50-40(D), 3745-50-58(B), 3745-50-56 and ORC Section 3734.05(H)

- (a) If the Permittee wishes to continue an activity allowed by this permit after the expiration date of this permit, the Permittee must submit a completed permit application for a hazardous waste facility installation and operation permit renewal and any necessary accompanying general plans, detailed plans, specifications, and such information as the Director may require, to the Director no later than one hundred eighty (180) days prior to the expiration date of this permit, unless a later submittal date has been authorized by the Director upon a showing of good cause.
- (b) The Permittee may continue to operate in accordance with the terms and conditions of the expired permit until a renewal permit is issued or denied if:
 - (i) The Permittee has submitted a timely and complete permit application for a renewal permit under OAC Rule 3745-50-40; and
 - (ii) Through no fault of the Permittee, a new permit has not been issued pursuant to OAC Rule 3745-50-40 on or before the expiration date of this permit.
- (c) The Corrective Action obligations contained in this permit will continue regardless of whether the facility continues to operate or ceases operation and closes. The Permittee is obligated to complete facility-wide Corrective Action under the conditions of this permit regardless of the operational status of the facility. The Permittee must submit an application for permit renewal at least one hundred eighty (180) days before the expiration date of this permit pursuant to OAC Rule 3745-50-40(D) unless: a) the permit has been modified to terminate the Corrective Action schedule of compliance and the Permittee has been released from the

requirements for financial assurance for Corrective Action; or b) a later submittal date has been authorized by the Director.

A.7 Need to Halt or Reduce Activity Not a Defense
OAC Rule 3745-50-58(C)

It shall not be a defense for the Permittee in an enforcement action that it would have been necessary to halt or reduce a permitted activity in order to maintain compliance with the conditions of this permit.

A.8 Duty to Mitigate
OAC Rule 3745-50-58(D)

The Permittee must take all reasonable steps to minimize releases to the environment and must carry out such measures as are reasonable to prevent significant adverse impact on human health or the environment resulting from noncompliance with this permit.

A.9 Proper Operation and Maintenance
OAC Rule 3745-50-58(E)

The Permittee must at all times properly operate and maintain the facility (and related appurtenances) to achieve compliance with the terms and conditions of this permit. Proper operation and maintenance includes effective management practices, adequate funding, adequate operator staffing and training, and where appropriate, adequate laboratory and process controls, including appropriate quality assurance/quality control procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the terms and conditions of this permit.

A.10 Duty to Provide Information
OAC Rule 3745-50-58(H)

The Permittee must furnish to the Director, within a reasonable time, any relevant information which the Director may request to determine whether cause exists for modifying or revoking, or to determine compliance with, this permit. The method used to obtain a representative sample of the waste to be analyzed must be the appropriate method from the appendix of OAC Rule 3745-51-20, Representative Sampling Methods, or an equivalent method approved by Ohio EPA. Laboratory methods must be those specified in Test Methods for the Evaluation of Solid Waste, Physical/Chemical Methods, EPA Publication SW-846, Third Edition (November 1986), as amended by Updates I (dated July 1992), II (dated September 1994), IIA (dated August 1993), IIB (dated January 1995), III (dated December 1996) and IIIA (dated April 1998), and additional supplements or editions thereof; Standard Methods for the Examination of Water and Wastewater: Twentieth Edition, 1999; or an equivalent method as specified in the approved waste analysis plan, or as this term is defined and used in the Ohio hazardous waste rules.

MODULE C - CONTAINERS STORAGE & TREATMENT

C. CONTAINER STORAGE AND MANAGEMENT

Wright-Patterson Air Force Base (WPAFB) is located in Fairborn, Ohio. The facility is permitted to store containerized hazardous waste. This waste management activity is conducted inside Building 479 located near the southern boundary of Area B. Building 479 is a 50 foot by 85 foot one-story, four-sided structure with a concrete slab foundation. The container storage area of Building 479 is designed, constructed, and managed as though all wastes stored in it contain free liquids. In terms of hazardous waste operations, the facility receives predominately waste from research labs and industrial shops at WPAFB. Examples of hazardous waste streams generated and stored at Building 479 are listed in Table C-1 of the permit application. The container storage area is divided into four bays (Bay 1 Toxics, Bay 2 Corrosives, Bay 3 Ignitables (nonhalogenated) and Bay 4 Ignitables (halogenated). These waste materials are evaluated and stored in the appropriate bay based on the waste type. The waste materials are stored at the facility for an interval, then shipped off to other permitted hazardous waste treatment, storage, and disposal facilities. No hazardous waste disposal occurs at the facility. The maximum amount of hazardous waste that can be stored at the facility at any time is 17,820 gallons with a secondary containment capacity of 14,392 gallons.

C.1 Container Storage/ Quantity Limitation

- (a) The Permittee is authorized to store 17,820 gallons of hazardous waste at any given time in the permitted container area located in Building 479. The Permittee must store hazardous waste in the types of containers (size and type) described in Section D of the permit application.
- (b) For the purpose of compliance with the capacity limitation of this permit, each container will be considered to be storing an amount of hazardous waste equal to its capacity, regardless of the actual quantity stored in the container.
- (c) Permit Conditions C.1(a) and C.2 shall not apply to the Permittee's activities as a generator accumulating hazardous waste on-site in compliance with OAC Rule 3745-52-10 and 40 CFR Part 265, subparts AA, BB, and CC.

However, when accumulating waste within the permitted container storage area, in accordance with OAC Rule 3745-52-10 and 40 CFR Part 265, subparts AA, BB, and CC, the Permittee must not, for the total amount of hazardous waste stored and accumulated, exceed the maximum container storage inventory established under this permit condition.

MODULE E - CORRECTIVE ACTION REQUIREMENTS

E.1 Corrective Action at the Facility **OAC Rules 3745-50-10 & 3745-54-101**

Corrective Action is currently being addressed pursuant to the Director's Final Findings and Orders issued to the U.S. Department of Defense. et. al., on February 7, 1988 ("Orders"). On May 24, 1991, WPAFB entered into an agreement with USEPA Region V to integrate the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) response obligations and RCRA correction action obligations. A copy of the relevant portion of this agreement is included in Attachment A.

For as long as the Permittee remains in compliance with the Orders, the Corrective Action obligations of the permit are met. In the event that the Consent Orders are violated, and/or the Corrective Action fails, is incomplete, or otherwise does not address corrective actions needed at waste management units, Ohio EPA reserves the right to modify the permit to require specific Corrective Action at the Facility.

In the event that any Corrective Action required at the Facility requires the implementation of a land use restriction for all or part of the Facility, it is contemplated that at the time that the specific requirements of a land use restriction can be determined, Director's Final Findings and Orders, on consent, will be issued which 1) create an equitable servitude upon the property, or portion thereof, which limits the use of the land as required by the approved Correction Action, and demonstrate the agreement between the landowner and Ohio EPA to create such an equitable servitude, 2) require the landowner to file notice of the equitable servitude with the County Recorder's Office, 3) require the landowner to place the deed restriction into the deed at the time of the next transaction on the property, and 4) contain, as an attachment or otherwise, the specific, agreed-upon language of the land use restriction itself.

END OF PERMIT CONDITIONS

Attachment A

2.1 STATUTORY COMPLIANCE/RCRA-CERCLA INTEGRATION

21.1 - The Parties intend to integrate the Air Force's CERCLA response obligations and RCRA correction action obligations which relate to the release(s) of hazardous substances, hazardous wastes, pollutants or contaminants covered by this Agreement into this comprehensive Agreement. Therefore, the Parties intend that activities covered by this Agreement will achieve compliance with CERCLA, 42 U.S.C. §9601 et seq; satisfy the corrective action requirements of Sections 3004(u) and (v) of RCRA, 42 U.S.C. 6928(h), for interim status facilities; and meet or exceed all applicable or relevant and appropriate Federal and State laws and regulations, to the extent required by Section 121 CERCLA, 42 U.S.C. §9621.

21.2 - Based upon the foregoing, the Parties intend that any remedial action selected, implemented and completed under this Agreement will be protective of human health and the environment such that remediation or releases covered by the Agreement shall obviate the need for further corrective action under RCRA (i.e., no further corrective action shall be required). The Parties agree that with respect to releases of hazardous waste covered by this Agreement, RCRA shall be considered an applicable or relevant and appropriate requirement pursuant to Section 121 of CERCLA, 42 U.S.C. §9621.
