**Subject: Apex Sanitary Landfill, Jefferson County
Permit-to-Install Alteration – AMDWR Condition**

Dear Mr. Largent:

On March 21, 2017, the Ohio Environmental Protection Agency (Ohio EPA) issued Permit-To-Install (PTI) No. 06-08448, which approved a vertical/horizontal expansion and an authorized maximum daily waste receipt (AMDWR) increase at the Apex Sanitary Landfill (Facility) located at 11 County Highway 70 in Amsterdam, Jefferson County, Ohio.

Condition No. 13 of the PTI states:

The Facility's authorized maximum daily waste receipt (AMDWR) is established to be ten thousand (10,000) tons. The permittee shall not accept more than 10,000 tons of solid waste for disposal at the Facility on any calendar day. This limit supersedes any previously established AMDWR for the Facility.

On September 30, 2024, Ohio EPA, Division of Materials and Waste Management (DMWM) received a request titled "PTI Alteration Request - AMDWR Increase, Apex Sanitary Landfill - Jefferson County, Ohio" (Request). The Request was submitted by Civil & Environmental Consultants, Inc. (CEC), on behalf of Interstate Waste Services (IWS), and requested an alteration to Condition No. 13 of the PTI to increase the Facility's AMDWR from 10,000 tons to 15,000 tons.

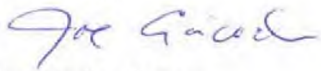

Ohio EPA, DMWM has completed the review of the revised Request and concurs with the Request pursuant to PTI No. 06-08448 by revising Condition No. 13 to state the following:

The Facility's authorized maximum daily waste receipt (AMDWR) is established to be fifteen thousand (15,000) tons. The permittee shall not accept more than 15,000 tons of solid waste and/or construction and demolition debris for disposal at the Facility on any calendar day. This limit supersedes any previously established AMDWR for the Facility.

Nothing in this letter shall be construed to authorize any waiver from the requirements of any applicable federal or state laws or regulations. This letter shall not be interpreted to release the owner or operator from responsibility under Ohio Revised Code (ORC) Chapters 3704, 3714, 3734, or 6111; under Federal Clean Water Act, the Resource Conservation and Recovery Act, or the Comprehensive Environmental Response, Compensation, and Liability Act; or from other applicable requirements for remedying conditions resulting from any release of contaminants to the environment.

If you have any questions concerning this letter, please contact Craig Walkenspaw of Ohio EPA, DMWM at 7(40) 380-5440.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Goicochea".

Joe Goicochea
