Dear Mr. Taylor:

On April 26, 2016, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Central District Office (CDO) received a document titled "Statistical Analysis Program for Groundwater Quality Monitoring Fairfield Sanitary Landfill – Revision 8", dated April 2016, for the Fairfield Sanitary Landfill Facility (Facility) located in Fairfield County. This document was prepared by Eagon & Associates, Inc. on behalf of Republic Services, Inc.

Pursuant to OAC Rule 3745-27-10(C)(7)(g), background data can be added only in blocks of data resulting from the analysis of four or more statistically independent samples after the data have been statistically compared to the current background data and no statistical differences are detected, unless another method is deemed acceptable to the director.

Republic Services, Inc. has proposed to update background datasets as part of the Facility's background data for the following well/parameter combinations:

- MW-313; Arsenic

Ohio EPA has reviewed the applicable information and concurs with the addition of the above data to existing background data. Therefore, pursuant to OAC Rule 3745-27-10(C)(7)(g), the owner or operator is hereby authorized to incorporate the above data in the Facility's background data.
