Ohio Administrative Code (OAC) Rule 3745-27-13 Authorization**

Dear Mr. Lucas:

On April 11, 2016, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Southwest District Office (SWDO), received a document titled "Gas Extraction Enhancement Activities OAC 3745-27-13 Authorization Request" (Request). The Request dated September 2015 (Revised March 2016) was received April 11, 2016 and was prepared and submitted by Hull & Associates, Inc. (Hull) on behalf of Waste Management of Ohio, Inc. (Waste Management), the owner of the closed Pinnacle Road Recycling and Disposal Facility (Facility) located at 4220 Pinnacle Road, Dayton, Ohio, pursuant to Ohio Administrative Code (OAC) Rule 3745-27-13.

OAC Rule 3745-27-13 requires authorization from the Director of Ohio EPA (Director) before engaging in filling, grading, excavating, building, drilling, or mining on land where a solid waste facility was operated. Specifically, Waste Management is requesting to enhance the Facility's existing active gas extraction system. The proposed work will include the installation of new extraction wells and lateral pipes, along with new condensate discharge lines and electrical conduits or air lines to operate condensate pumps. The Facility operated as a municipal solid waste landfill from 1979-1993.

Based upon a review of the Request, I have determined, pursuant to OAC Rule 3745-27-13, that the proposed activities, if conducted in accordance with the Request and the following conditions, will not result in a violation of applicable laws or regulations, will not create a nuisance, and are unlikely to adversely affect the public safety or health or the environment. Therefore, Waste Management is hereby authorized to perform the activities outlined in this letter in accordance with the submitted and approved plans, specifications, and information submitted as part of this Request.

As part of this authorization, Waste Management is subject to the following conditions:
