ENTERED DIRECTOR'S JOURNAL

JULY 6, 2016

Mr. James Lyon  
Sunny Farms Landfill  
12386 Township Road 108  
Fostoria, Ohio 44830

Re: Sunny Farms Landfill LLC  
Director's Authorization  
Approval  
Municipal Solid Waste Landfills  
Seneca County  
MSWL018786

**Subject: Sunny Farms Landfill, Seneca County  
Ohio Administrative Code (OAC) Rule 3745-27-10(D)(7)(c)(ii) Approval**

Dear Mr. Lyon:

On May 19, 2016, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Northwest District Office, (NWDO) received a document titled "*Alternate Source Demonstration – 2015 Second Semi-Annual Sampling Event Statistically Significant Increase of Chloride at MP-3AR, Potassium at MP-7B, Ammonia at MP-11B, Sodium at MP-15AR, and Arsenic at MP-8B, MP-15BR, and MP-108B, Sunny Farms Landfill, Seneca County, Ohio, CEC Project 120-262,*" dated May 18, 2016, for Sunny Farms Landfill (Facility) located in Seneca County. This document was submitted by Civil & Environmental Consultants, Inc., on behalf of Sunny Farms Landfill, LLC, and contains the ground water sampling results and the statistical analysis from the November 30 through December 2, 2015, ground water sampling event at the Facility.

According to the document, analysis of the ground water detection monitoring data indicated that the following statistically significant changes were detected: potassium at monitoring well MP-7B; arsenic at monitoring well MP-8B; chloride at monitoring well MP-3AR; ammonia at monitoring well MP-11B; sodium at monitoring well MP-15AR; and arsenic at monitoring wells MP-15BR and MP-108B.

Pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator may demonstrate that a source other than the sanitary landfill facility caused the contamination, or that the statistically significant change resulted from error in sampling, analysis, or statistical evaluation or natural variation in ground water quality. A report documenting this demonstration must be submitted to and approved by Ohio EPA. If the owner or operator does not obtain approval to continue detection monitoring not later than two hundred ten (210) days from initial sampling, the owner or operator is required to comply with the provisions of OAC Rule 3745-27-10(E) for ground water quality assessment monitoring.

The May 18, 2016, document concluded that the statistically significant changes for potassium at monitoring well MP-7B; arsenic at monitoring well MP-8B; chloride at monitoring well MP-3AR; ammonia at monitoring well MP-11B; sodium at monitoring well MP-15AR; and arsenic at monitoring wells MP-15BR and MP-108B were due to sampling error, or natural variation in ground water quality, and not as a result of impact from the landfill. Monitoring well MP-15AR was initially sampled on November 30, 2016. Monitoring wells MP-7B, MP-8B, MP-3AR, MP-11B, MP-15BR, and MP-108B were initially sampled on December 1, 2016.

Ohio EPA has reviewed the applicable information and concurs with the demonstration included in the May 18, 2016, document. Therefore, pursuant to OAC Rule 3745-27-10(D)(7)(c)(ii), the owner or operator is hereby authorized to continue the detection monitoring program at the Facility for monitoring wells MP-7B, MP-8B, MP-3AR, MP-11B, MP-15BR, MP-108B, and MP-15AR.

Should future or existing ground water sampling results indicate statistically significant changes in ground water monitoring parameters, the owner or operator will be required to either enter into assessment monitoring in accordance with OAC Rule 3745-27-10(E) or obtain approval to remain in the detection monitoring program.

You are hereby notified that this action of the Director of Environmental Protection (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
77 South High St., 17<sup>th</sup> Floor  
Columbus, Ohio 43215

Mr. James Lyon
