Director's Final Findings

and Orders

Respondent

PREAMBLE

It is agreed by the Parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Mark Mehwald ("Respondent"), pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("R.C.") 6111.03(H) and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in the ownership of the property or wastewater treatment plant, both identified below, shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated all terms used in these Orders shall have the same meaning as defined in R.C. Chapter 6111 and the rules adopted thereunder.

IV. FINDINGS

The Director of Ohio EPA has made the following findings:

- 1. Respondent, a "person" as defined in R.C. 6111.01(I) and 1.59(C), owns commercial property located a 1388 Ridge Road, Hinckley, Medina County. ("property"), on which is situated a retail structure housing a coffee and donut business.
- 2. Servicing the property and structure is a 1,500 gallon per day extended aeration wastewater treatment plant ("WWTP") which discharges pollutants to East Branch of Rocky River via an unnamed tributary, all waters of the state.

- 3. On July 29, 2014, memorialized in a letter to Respondent dated August 11, 2014, Ohio EPA inspected the WWTP and noted/observed the following:
 - a. The WWTP was discharging pollutants to waters of the state without a valid, unexpired Ohio National Pollutant Discharge Elimination System ("NPDES") permit issued by the Director;
 - b. The WWTP was equipped with a dual blower/motor system, with the units positioned vertically. The bottom motor was missing and required immediate replacement;
 - c. The sidewalls of the settling tank may require scraping;
 - d. The surface sand filter consisted of two cells, both overgrown with vegetation. Immediate maintenance on the cells was required so that both cells would be free of sludge, vegetation, and debris at all times;
 - e. Once the solids and vegetation are removed, additional filter media may be required; and
 - f. No de-chlorination dispensing unit, required to be operational during May through October, was observed.
- 4. Respondent has applied for and on January 13, 2016 was issued, an Ohio NPDES permit. The Ohio NPDES permit No. 3PR00684*AD was effective on February 1, 2016 and it will expire on January 31, 2021.

Regulatory Statutes / Violation

- 5. R.C. 6111.04(A) prohibits any person from causing pollution or causing any sewage, industrial waste or other waste to be placed in any location where they cause pollution to waters of the state, except if such discharges occur in accordance with a valid, unexpired Ohio NPDES permit issued by the Director or if an application for renewal of such permit is pending.
- 6. R.C. 6111.07(A) prohibits any person from violating, or failing to perform, any duty imposed by R.C. 6111.01 to 6111.08, or violating any order. Each day of violation is a separate offense.
- 7. R.C. 6111.09 provides that any person who violates R.C. 6111.07(A) shall pay a civil penalty of not more than ten thousand dollars per day of violation.
- 8. Respondent was causing pollution to waters of the state without a valid, unexpired Ohio NPDES permit issued by the Director, violating R.C. 6111.07(A).

Director's Considerations

- 9. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with these Orders and to evidence relating to conditions calculated to result from compliance with these Orders, and their relation to the benefits to the people of the state to be derived from such compliance in accomplishing the purposes of R.C. Chapter 6111.
- 10. The following Orders do not constitute authorization or approval of the construction of any physical structure or facilities, or the modification of any disposal system. Any such construction or modification is subject to R.C. 6111.44 and 6111.45 and Ohio Admin.Code Chapter 3745-42.
