

BEFORE THE
OHIO ENVIRONMENTAL PROTECTION AGENCY

In the Matter of:

Trans-Acc., Inc. : Director's Final Findings
11167 Deerfield Road : and Orders
Cincinnati, Ohio 45242 :

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Trans-Acc., Inc. ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") § 3704.03 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3704 and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent owns and operates a facility located at 1005 South Ninth Street, Hamilton, Butler County, Ohio ("Facility"). At the Facility, Respondent performs miscellaneous metal parts coating services.

2. Hamilton County Department of Environmental Services ("HCDOES") is a contractual agent for Ohio EPA in Butler County for the administration of Ohio's air pollution rules and laws.

3. On November 19, 2002, Ohio EPA issued permit-to-install ("PTI") 14-05358 for two metal parts coating booths, which are identified by Ohio EPA as emissions units K001 and K002. The terms and conditions of PTI 14-05358 contain applicable emission limitations and operational control and reporting requirements for emissions units K001 and K002. The emissions units listed in PTI 14-05358 are "air contaminant sources" as defined in Ohio Administrative Code ("OAC") Rule 3745-15-01(C) and (W).

4. On February 2, 2005, HCDOES received, from Respondent, an exceedance report for emissions unit K001. Specifically, Respondent notified HCDOES that on eighteen days between October 14th and December 14th, 2004, Respondent exceeded the daily volatile organic compound ("VOC") emission limit of 112 pounds per day and on nineteen days, during this same timeframe, Respondent exceeded the maximum daily liquid coating usage limitation of 32 gallons per day. PTI 14-05358 required Respondent to submit an exceedance report to Ohio EPA or the local air agency within 30 days following the end of the calendar month in which the exceedances occurred. For the calendar months of October and November 2004, Respondent failed to notify Ohio EPA or HCDOES of the aforementioned exceedances associated with emissions unit K001 within 30 days following the end of the calendar month in which the exceedances occurred, in violation of Part II.D.2. of the terms and conditions of PTI 14-05358 and ORC § 3704.05(C).

5. By letter dated February 16, 2005, HCDOES notified Respondent of the violations referenced in Finding No. 4 of these Orders.

6. On March 14, 2005, HCDOES conducted a compliance inspection at the Facility. As a result of this inspection, on March 15, 2005, HCDOES issued a notice of compliance letter to Respondent, for this Facility.

7. On April 6, 2006, Ohio EPA issued synthetic minor PTI 14-05779 for new emissions units K003 (metal parts coating booth) and P001 (solvent wipe cleaning). PTI 14-05779 also included a modification to emissions unit K001 which superseded the terms and conditions of PTI 14-05358 for this emissions unit. The terms and conditions of PTI 14-05779 contain applicable emission limitations and operational control requirements for emissions units K001, K003 and P001. The emissions units listed in PTI 14-05779 are "air contaminant sources" as defined in OAC Rule 3745-15-01(C) and (W).

8. On May 19, 2006, Respondent self-reported to HCDOES that beginning May 15, 2006, Respondent modified emissions unit K002 without first obtaining a PTI, in violation of OAC Rule 3745-31-02(A) and ORC § 3704.05(G). Specifically, Respondent notified HCDOES that another paint spray applicator was added to emissions unit K002 and that the three gallon maximum daily coating usage limitation established in PTI 14-05358 was going to be exceeded. Respondent operated modified emissions unit K002 without a permit to operate from May 15, 2006 until September 18, 2007, in violation of

OAC Rule 3745-35-02(A) and ORC § 3704.05(G).

9. On June 2, 2006, HCDOES conducted a compliance inspection at the Facility and confirmed that Respondent had modified emissions unit K002 by adding another paint spray applicator without first obtaining a PTI, in violation of OAC Rule 3745-31-02(A) and ORC § 3704.05(G).

10. By letter dated June 6, 2006, HCDOES notified Respondent of the violations referenced in Finding Nos. 8 and 9 of these Orders.

11. On September 6, 2006, Respondent submitted, to Ohio EPA, a PTI application to modify several emissions units (K001, K002, K003 and P001) at Respondent's facility into one emissions unit ("K004"). On December 13, 2006, Respondent submitted, to Ohio EPA, an amendment to this PTI application.

12. On September 18, 2007, synthetic minor PTI 14-05946 was issued to Respondent for emissions unit K004. The emissions unit listed in PTI 14-05946 is an "air contaminant source" as defined in OAC Rule 3745-15-01(C) and (W). The issuance of PTI 14-05946 abated the violations referenced in Finding Nos. 8 and 9 of these Orders.

13. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with the following Orders and their relation to benefits to the people of the State be derived from such compliance.
