ENTERED DIRECTOR'S JOURNAL

BEFORE THE
OHIO ENVIRONMENTAL PROTECTION AGENCY

In the Matter of:

Pure Gas Incorporated : Director's Final Findings
228 E. Erie Avenue : and Orders
Lorain, Ohio 44052 :

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders ("Orders") are issued to Pure Gas Incorporated ("Respondent") pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency ("Ohio EPA") under Ohio Revised Code ("ORC") §§ 3704.03 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent's facility (as hereinafter defined) shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3704 and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA makes the following findings:

1. Respondent owns and operates a gasoline dispensing facility ("GDF") located at 228 E. Erie Avenue, in Lorain (Lorain County), Ohio. This GDF is subject to the requirements of Ohio Administrative Code ("OAC") Rule 3745-21-09(DDD) concerning Stage II vapor control systems.

2. On July 31, 2008, Respondent submitted and was issued a permit-by-rule ("PBR") by Ohio EPA, in accordance with OAC Rule 3745-31-03. The PBR required Respondent to comply with the requirements for Stage II vapor control systems as specified in OAC Rule 3745-21-09(DDD).

3. ORC § 3704.05(G) states, in part, that no person shall violate any order, rule, or determination of the Director issued, adopted, or made under ORC Chapter 3704. OAC Rule 3745-21-09(DDD) was adopted by the Director pursuant to ORC Chapter 3704.

4. OAC Rule 3745-21-09(DDD)(1)(b) states, in part, that no owner or operator of a subject GDF may cause, allow, or permit the transfer of gasoline from a stationary tank at a GDF into a motor vehicle unless a vapor control system is installed, operated, and maintained in accordance with the manufacturer's specifications and the applicable California Air Resources Board ("CARB") certification, and is free from defect.

5. OAC Rule 3745-21-09(DDD)(1)(c) states, in part, that no owner or operator of a subject GDF may cause, allow, or permit the transfer of gasoline from a stationary tank at a GDF into a motor vehicle unless the vapor control system successfully passes the testing requirements contained in OAC Rule 3745-21-09(DDD)(2).

6. OAC Rule 3745-21-09(DDD)(2)(f) requires the owner or operator of a GDF to perform and comply with any vapor control system tests specified in the applicable CARB certification. As part of the required CARB testing for the above-mentioned GDF, an air-to-liquid ("A/L") ratio test and a static leak test are required to be performed annually and any fueling point not capable of demonstrating compliance with the performance standards of the A/L ratio test is deemed to be defective and is required to be removed from service.

7. On January 2, 2008, Respondent attempted to conduct the annual Stage II compliance tests at this GDF. However, the static leak and A/L ratio tests were not performed due to leaking ATG caps. In addition, two hoses were crimped and flattened and needed to be replaced. Respondent was dispensing gasoline prior to and after the defects were identified. The failure to properly install, operate, and maintain the vapor control system and to successfully pass the testing requirements in OAC Rule 3745-21-09(DDD)(2) while causing, allowing, or permitting the transfer of gasoline from a stationary storage tank into a motor vehicle were violations of ORC § 3704.05(G) and OAC Rule 3745-21-09(DDD)(1)(b) and (c).

8. On January 16, 2008, Respondent conducted a retest at this GDF. The static leak test passed but dispensers 3 and 4 failed the A/L ratio test due to the vacuum pump not working. Respondent was dispensing gasoline prior to and after the failed the A/L ratio test. The failure to properly install, operate, and maintain the vapor control system and to successfully pass the testing requirements in OAC Rule 3745-21-

09(DDD)(2) while causing, allowing, or permitting the transfer of gasoline from a stationary storage tank into a motor vehicle were violations of ORC § 3704.05(G) and OAC Rule 3745-21-09(DDD)(1)(b) and (c). On June 2, 2008, Respondent conducted and passed an A/L ratio retest for dispensers 3 and 4.

9. On March 12, 2009, Respondent attempted to conduct the annual Stage II compliance tests at this GDF. The static leak and A/L ratio tests were not performed due to the poor condition of several nozzles and because the wrong nozzles were being used on all the dispensers at this GDF. Respondent was dispensing gasoline prior to and after the defects were identified. The failure to properly install, operate, and maintain the vapor control system and to successfully pass the testing requirements in OAC Rule 3745-21-09(DDD)(2) while causing, allowing, or permitting the transfer of gasoline from a stationary storage tank into a motor vehicle were violations of ORC § 3704.05(G) and OAC Rule 3745-21-09(DDD)(1)(b) and (c).

10. On April 7, 2009, Respondent conducted a retest at this GDF. The static leak test passed but dispenser 4 failed the A/L ratio test due to the vacuum pump not working. Respondent was dispensing gasoline prior to and after the failed the A/L ratio test. The failure to properly install, operate, and maintain the vapor control system and to successfully pass the testing requirements in OAC Rule 3745-21-09(DDD)(2) while causing, allowing, or permitting the transfer of gasoline from a stationary storage tank into a motor vehicle were violations of ORC § 3704.05(G) and OAC Rule 3745-21-09(DDD)(1)(b) and (c). On June 8, 2009, Respondent conducted and passed an A/L ratio retest for dispenser 4.

11. By letter dated September 9, 2009, Ohio EPA notified Respondent of the violations referenced in Finding Nos. 7, 8, 9, and 10 of these Orders.

12. The Director has given consideration to, and based his determination on, evidence relating to the technical feasibility and economic reasonableness of complying with the following Orders and their relation to benefits to the people of the State to be derived from such compliance.
