

Gallia County Rural Water Association

308 Burnett Rd.

Gallipolis, Ohio 45631

740-446-9221

February 8, 2017

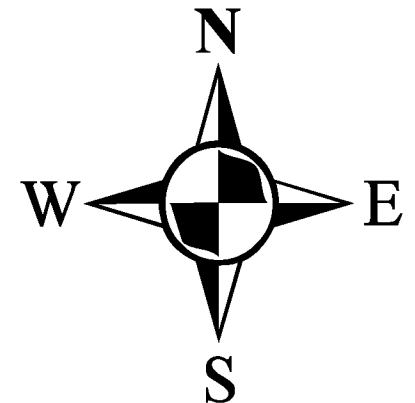

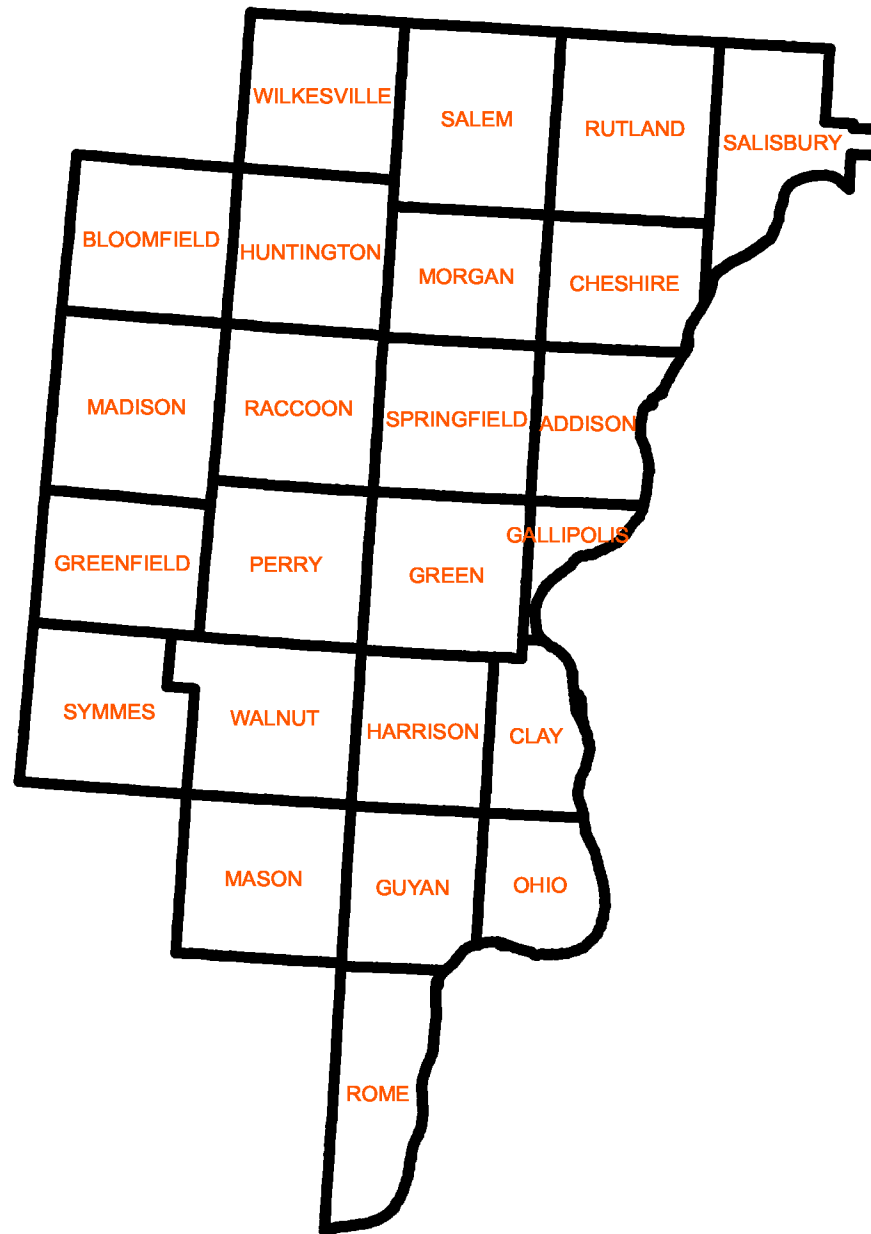

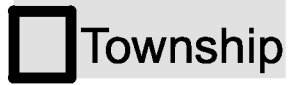

The Gallia County Rural Water Association serves residential, commercial, industrial, and municipal buildings located throughout the 23 township service area of Gallia, Jackson, Lawrence, Meigs and Vinton Counties. All production, treatment, transmission, distribution and service piping is composed of either ductile iron, cast iron, copper, poly vinyl chloride and/or high density polyethylene. No lead service lines or leaded joints were used in the construction and/or maintenance of this water system since beginning service in 1972.

MAP EXPLANATION:

- **23 Township maps of water system**
- **The YELLOW shaded areas are water lines and are considered low risk since the age of the structures served and the possibility that they could contain some plumbing and/or fixtures that were installed prior to the 1982 and/or 1998 lead by weight regulations.**
- **The BLACK dots labeled LC### are the lead monitoring sample points submitted on the Lead & Copper Sample ID Spreadsheet. All sites are considered Tier #1 sites.**
