

Narrative of the
Licking Rural Electrification Building
11339 Mt Vernon Road
Utica, Ohio 43080

PWS Number: OH4534612

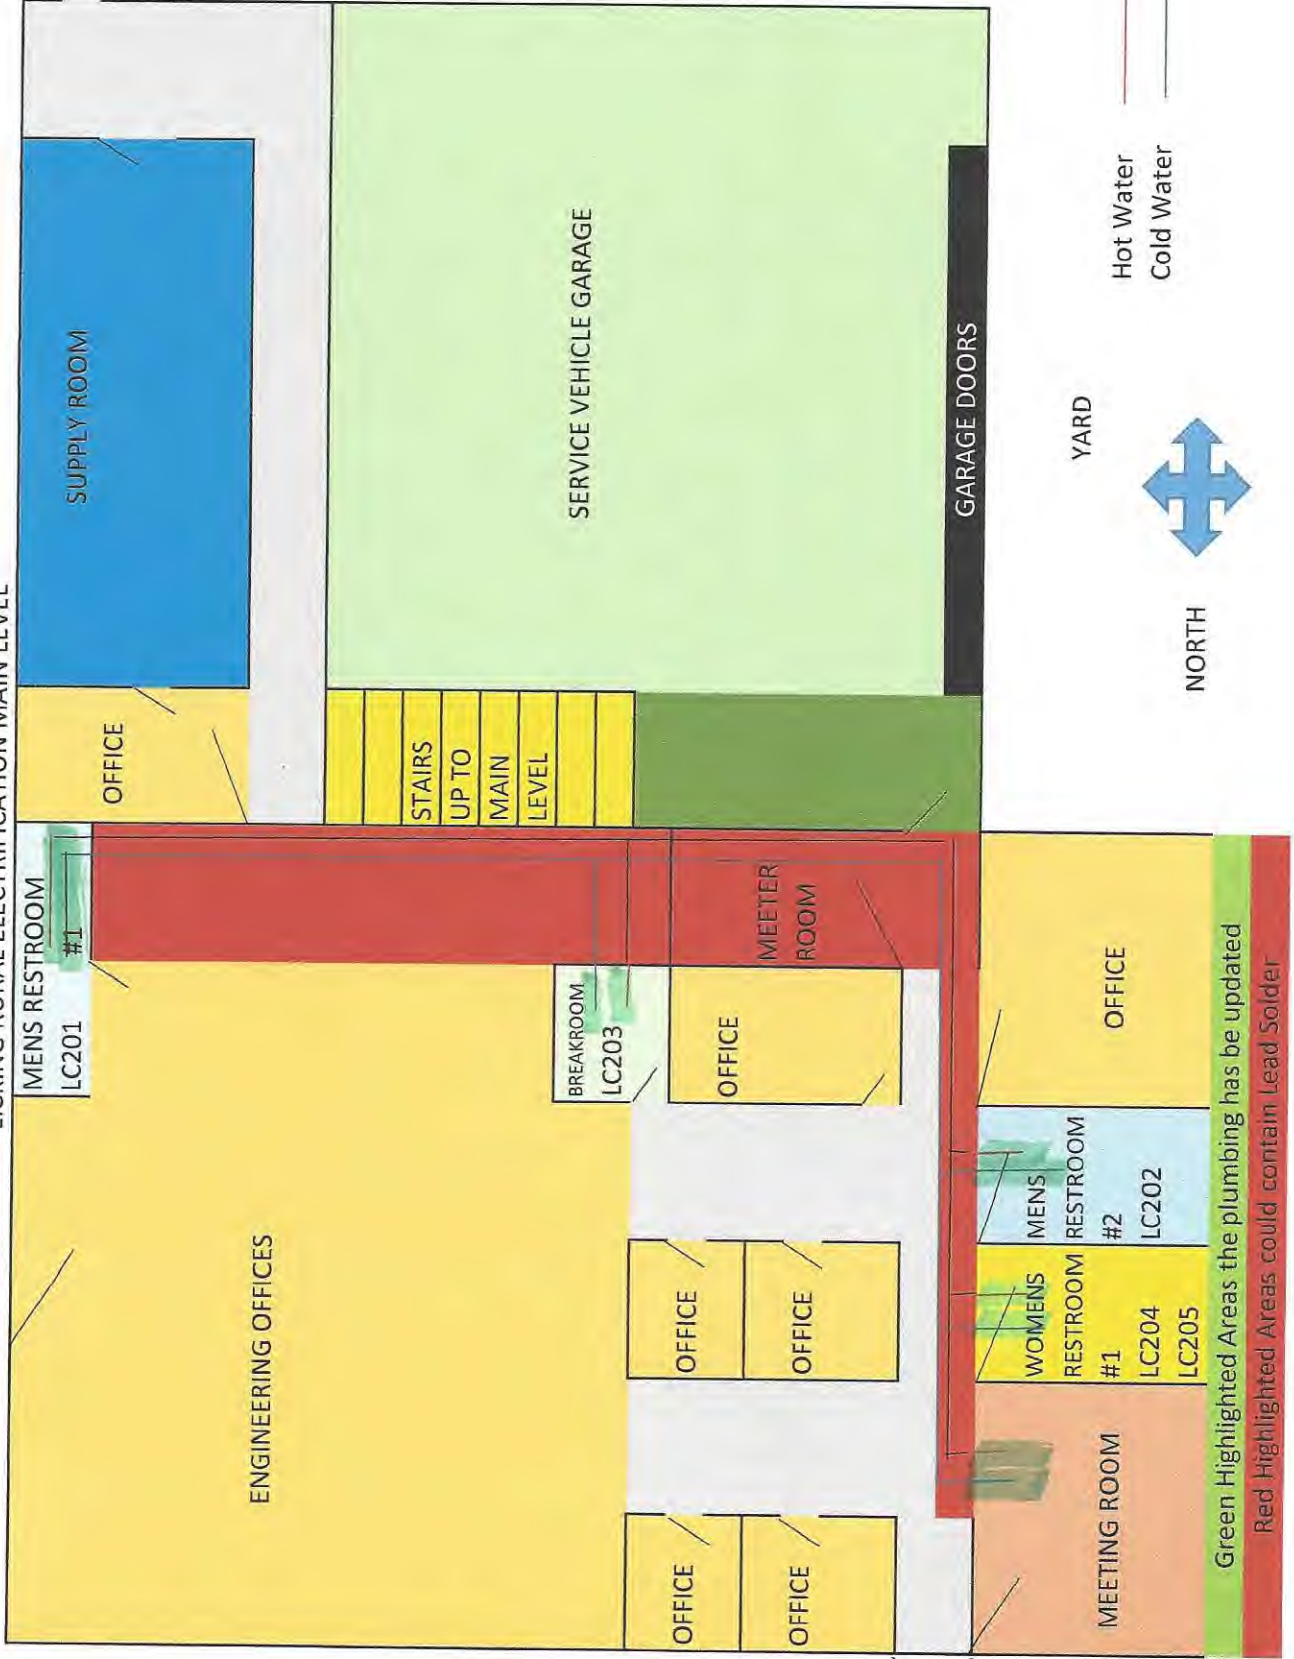

Operator of record: Glen Richards
Certification Number: WS1-1010759-94

The building was constructed in 1959. The plumbing in the building consist of soldered copper and plastic water lines. Most of the fixtures in the building has been replace when renovations were done to the building in the past ten years. Although there are soldered copper lines that where installed in 1959, the presents of lead have not been detected in the last lead and copper samples.
