North Point Education Service Center

1661 North Walker Street

Graytown, Ohio 43432

419-627-3900 Ext. 2

The North Point Education Service Center in Graytown, Ohio (formerly Graytown Elementary School) was originally built in 1938 with additions in 1955 and 1987 (see attachments). The well is located off the northeast corner of the school and runs to the main shut off located in the school. The well line material is standard plastic well piping. The interior piping consists of copper and galvanized piping. In 1987 along with the addition, all water piping was re-piped, to the best of our knowledge. The sample sites that were chosen are located in the oldest part of the building (see attachment).

North Point believes in taking a proactive approach in protecting the students and faculty. The school is planning to replace faucets to insure there is no lead present in the drinking water.
