From: John Christopher, Water Utilities Superintendent Cuyahoga Falls, Ohio

Subject: 2017 Lead Mapping

Dave,

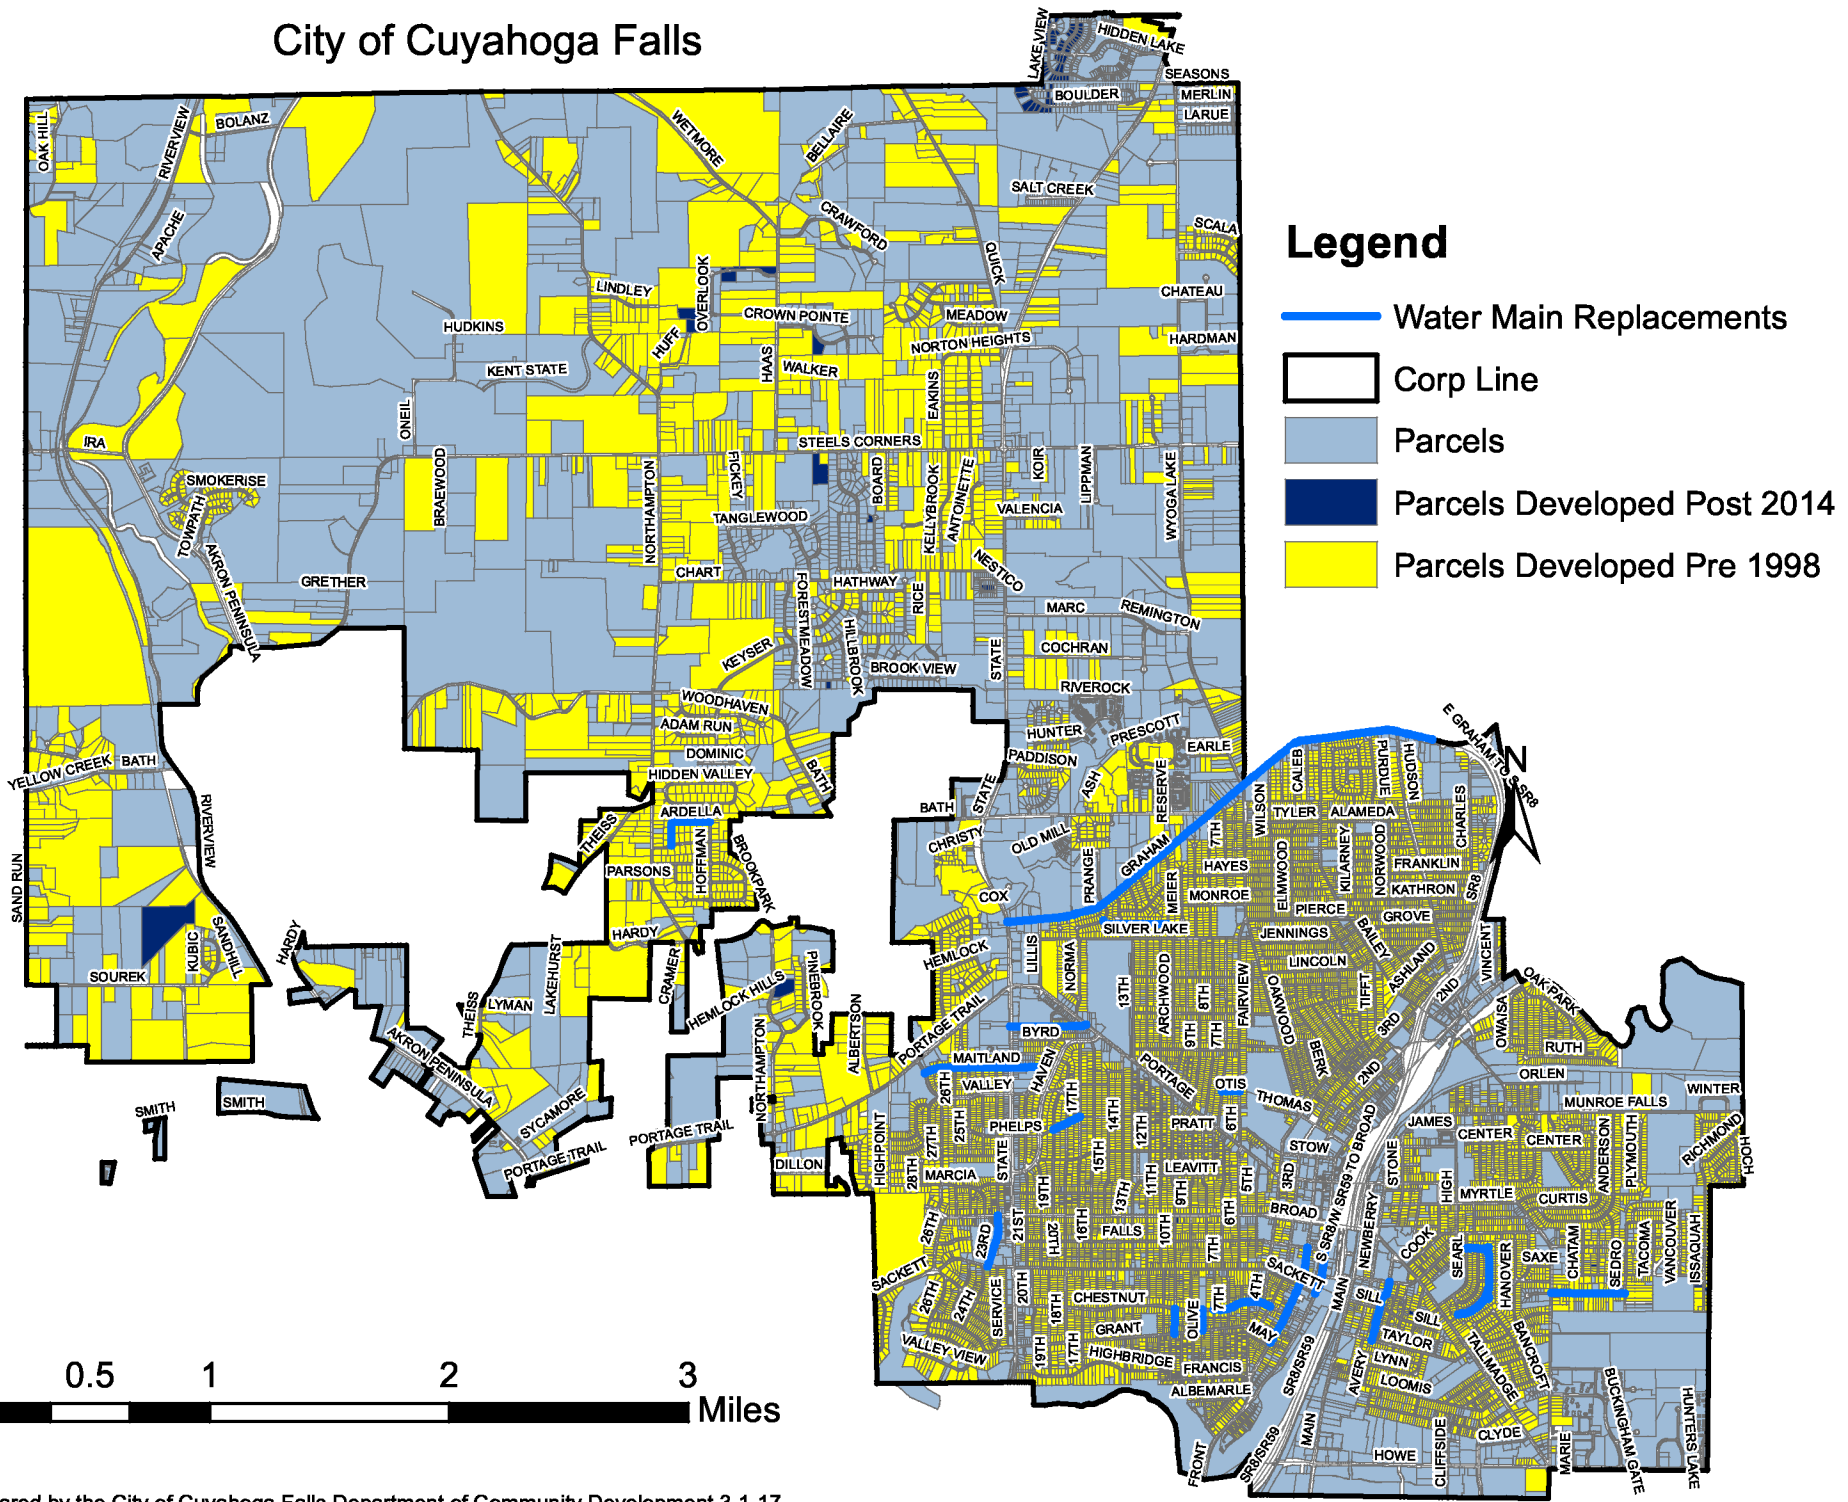

Along with the map of the City of Cuyahoga Falls, I wanted to include this letter stating improvements, procedures and policies we follow concerning lead service lines.

First, if there is anything missing from this latest map, please let me know. The map will also be sent to the Ohio Dept. of Health and the Ohio Dept. of Job and Family Services.

The map shows:

- Parcels in town developed since 1998**
- Parcels developed after 2014**
- All other parcels, developed prior to 1998**
- Water mains replaced over the past 10 years**
- The 30 locations where water samples are collected for lead-copper testing.**

City of Cuyahoga Falls

Legend

- Water Main Replacements
- Corp Line
- Parcels
- Parcels Developed Post 2014
- Parcels Developed Pre 1998
