RE: Lead and Copper Program
Mapping and SMP Locations
Village of Millersport, OH
Fairfield County
PWS 2301212

Dear Ms. Anderson:

The Village of Millersport's original public water system was built in 1968.

Water Distribution System

The original water distribution system was cement asbestos (AC) pipe for all water main lines larger than 2 inches. The 2 inch and 3 inch water main lines are PVC plastic. In 1982, there were 2 main water line extensions which serve out of town customers. Both of these main water line extensions are PVC plastic.

Water service lines are high density polyethylene (HDPE) for the following sizes; ¾ inches, 1 inch, 1 ½ inch, and 2 inch. However, there are some 2 inch PVC plastic water service lines. Larger than 2 inch water service lines are PVC plastic. **THERE ARE NO LEAD WATER SERVICE LINES IN OUR WATER DISTRIBUTION SYSTEM.**

Identifying Characteristics of Building Plumbing

We have an elementary school, middle/high school, doctors office, dentist office, 3 churches, post office, one gas station, several restaurants, 3 boat marinas, bank, pharmacy, hardware, rope manufacturing business, boat lift manufacturer, bolt and screw packaging business, along with several small business's. From previous service calls, the above facilities are predominately copper plumbing.

Residential plumbing is predominately copper plumbing, with PVC plastic plumbing being used second. New repairs and modifications to household plumbing have been changing to the easier to use plastic PEX pipe and plumbing fittings which are available in plastic and non-lead brass.

Water Distribution System

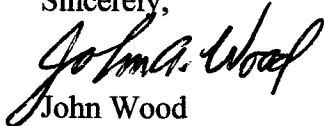

We have attached our water distribution system mapping. We will modify and/or update this mapping or narrative as deemed necessary by the Ohio EPA.

SMP ID Locations and Map

We have attached our SMP ID locations and Map for your review. It was previously sent to Mike Deal of your office.

This report was completed in house. Our resources were limited. Should you have additional questions, or need additional information, please contact me at 740-467-2374.

Sincerely,

A handwritten signature in black ink, appearing to read "John Wood", written over the printed name.

John Wood
Water Superintendent
Village of Millersport

**VERIFICATION FORM FOR COMMUNITY PUBLIC WATER SYSTEMS
CLAIMING NO LEAD SERVICE LINES**

The owner or operator of all community public water systems must identify and map areas of their distribution system that are known or are likely to contain lead service lines. Systems must submit a copy of the applicable map to the Ohio Department of Health and the Ohio Department of Job and Family Services. Systems must also submit a report to the director containing at least both of the following: (1) The applicable map with narrative, and (2) A list of sampling locations used to collect samples as required by Ohio Revised Code (ORC) Section 6109.121 and any rules adopted thereunder, including contact information for the owner and occupant of each sampling site.

Should a water system determine no lead service lines exist in their distribution system, they must provide information stating they reviewed, at the minimum, historical permit records and local ordinances, distribution maintenance records and information pertaining to installation dates or materials for all services lines. This information must be verified below.

I HEREBY CERTIFY THAT THE FOLLOWING METHOD(S) WERE USED TO DETERMINE NO LEAD SERVICE LINES EXIST IN THIS WATER SYSTEM'S DISTRIBUTION SYSTEM, AS REQUIRED BY ORC 6109.121(F):

| LEAD SERVICE LINE VERIFICATION |
|---|
| <p>This PWS states they have no lead service lines and has reviewed the following information (select one or more of the following):</p> <ul style="list-style-type: none"><input checked="" type="checkbox"/> Historical permit records (TAP CARDS)<input checked="" type="checkbox"/> Distribution maintenance records (i.e. meter replacement, waterline break repairs)<input type="checkbox"/> Information pertaining to installation dates for all service lines (i.e. after 1986 when lead services lines were banned)<input checked="" type="checkbox"/> Service line material of all service lines is known (i.e. all service lines are known to be HDPE and PVC) |
