**OEPA Lead Mapping**

# The Way International PWS OH7501412 Submittal Requirements

## VII. Submittal Requirements

a. The Map detailed in section VI of guidelines.

- Pdf file of map attached to this email.

b. A narrative description of buildings served by the water system likely to contain lead solder, plumbing or fixtures. Where possible, areas of the community where buildings meeting these characteristics are most likely located should be described and may be identified on a map of the community.

- Buildings identified on map (yellow highlight) may contain copper plumbing with lead solder and were all constructed prior to 1998. They also may contain fixtures manufactured before 1998. Other buildings on map may contain fixtures manufactured before 1998.
- Building identification
  - 1- Outreach Services Center (OSC): Office building and warehouse.
