

**VERIFICATION FORM FOR COMMUNITY PUBLIC WATER SYSTEMS
CLAIMING NO LEAD SERVICE LINES**

The owner or operator of all community public water systems must identify and map areas of their distribution system that are known or are likely to contain lead service lines. Systems must submit a copy of the applicable map to the Ohio Department of Health and the Ohio Department of Job and Family Services. Systems must also submit a report to the director containing at least both of the following: (1) The applicable map with narrative, and (2) A list of sampling locations used to collect samples as required by Ohio Revised Code (ORC) Section 6109.121 and any rules adopted thereunder, including contact information for the owner and occupant of each sampling site.

Should a water system determine no lead service lines exist in their distribution system, they must provide information stating they reviewed, at the minimum, historical permit records and local ordinances, distribution maintenance records and information pertaining to installation dates or materials for all services lines. This information must be verified below.

I HEREBY CERTIFY THAT THE FOLLOWING METHOD(S) WERE USED TO DETERMINE NO LEAD SERVICE LINES EXIST IN THIS WATER SYSTEM'S DISTRIBUTION SYSTEM, AS REQUIRED BY ORC 6109.121(F):

LEAD SERVICE LINE VERIFICATION

This PWS states they have no lead service lines and has reviewed the following information (select one or more of the following):

- ☐ Historical permit records and/or local ordinances
- ☐ Distribution maintenance records (i.e. meter replacement, waterline break repairs)
- ☐ Information pertaining to installation dates for all service lines (i.e. after 1986 when lead services lines were banned)
- ☒ Service line material of all service lines is known (i.e. all service lines are known to be PVC)

This letter is to discuss the issue that the EPA has brought up about Lead piping within our water systems. I J.D. Klinesmith am the Camp Director of the NEO Retreat Center and Campgrounds for over 12 years along with Allen Kunselman the previous Camp Director for over 19.5 years are both willing to state that all service line to all buildings and Mobil homes are constructed of PVC line. The campground area of this facility is constructed of Black Well Casing Plastic pipe. The both of us have worked on these lines in just about every area of this facility over the past 30 years and we have only found these two types of pipes. If there needs to be another form filled out by the both of us stating this we both are willing to do that, let us know.

Along with that we are in the final stages of attaching into Mahoning County water and sewer systems.

Sincerely,

JD Klinesmith
