Within Harmony Estates, all homes are fed with polyethylene water pipes that have either polyethylene or galvanized steel fittings. Some homes have water risers that contain copper pipe with mechanical copper fittings. Since the park was built and piped prior to 1986, some underground features may contain lead fittings. An approximation of the placement of those water lines are depicted on the map in blue.

The well house contains some copper with lead soldered fittings. It also contains galvanized steel and polyethylene pipes and fittings.
