Re: Lead Disclaimer For city Of Napoleon

Dear Mr. Khaleq:

The following disclaimer was omitted. Please except for our mapping obligation.

"Buildings in Ohio built prior to 1998 or that use plumbing material or solder manufactured before 1998 may have materials with greater than 8% lead and are at higher risk of contributing lead to the drinking water than materials manufactured after 1998. In addition, building built and plumbing material manufactured after 2014 were required to have less than 0.25% lead by weight and have the lowest risk for contributing lead to the drinking water. It should be noted however that, although prohibited, some use of leaded solder or leaded componets may have occurred after the prohibitions became effective.

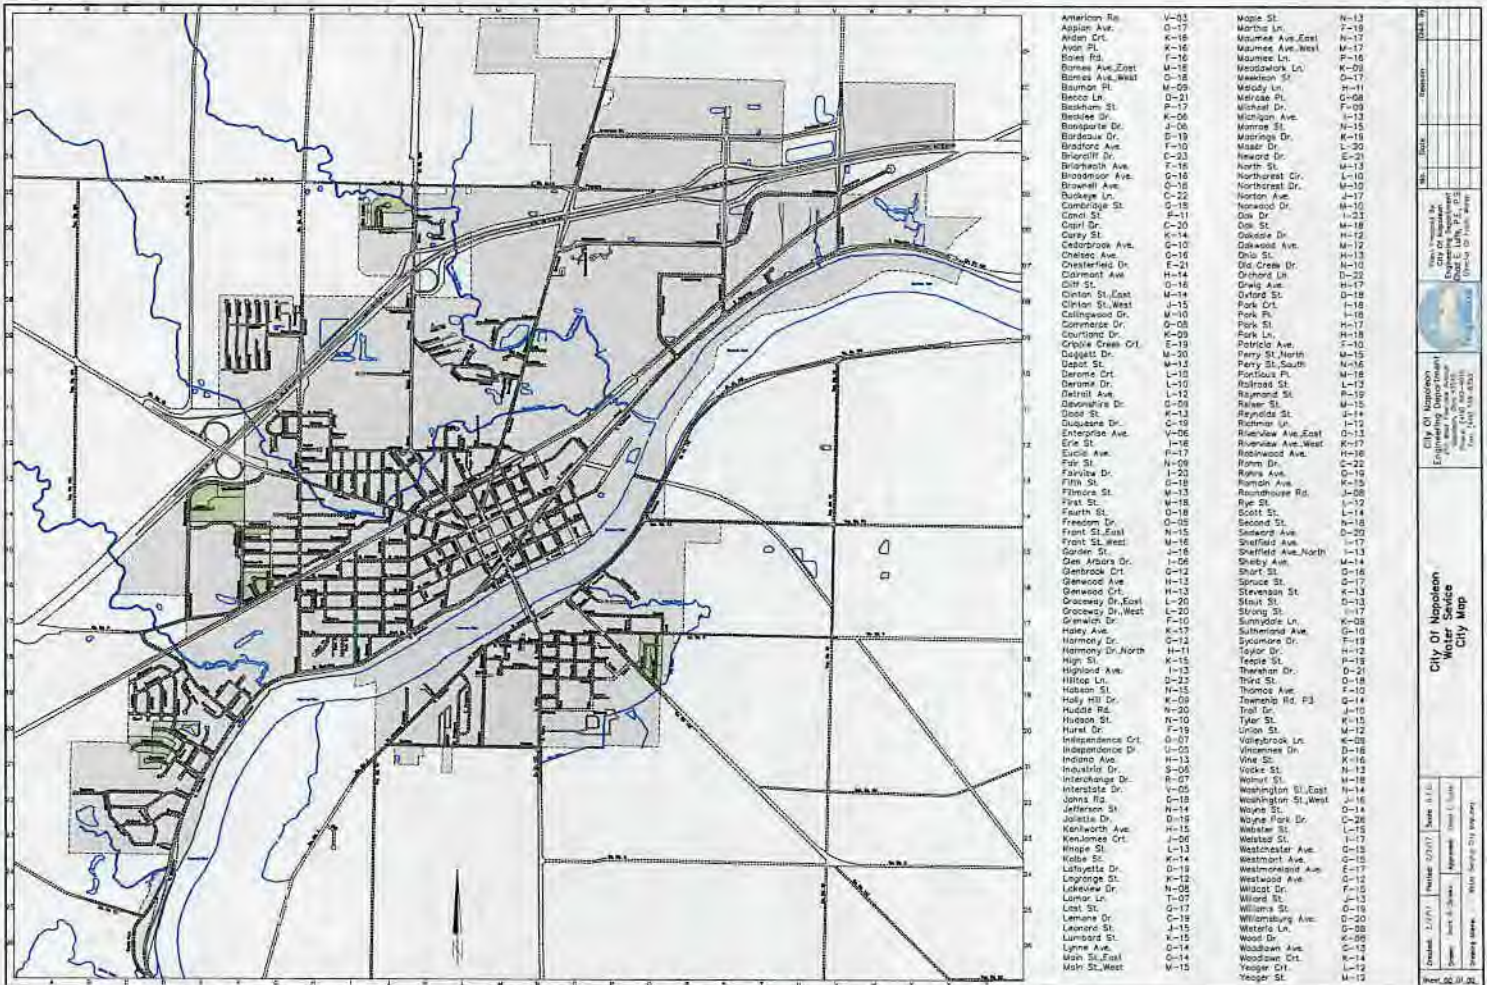

If you have any questions regarding this matter, please feel free to contact me at 419-592-8811

Sincerely,

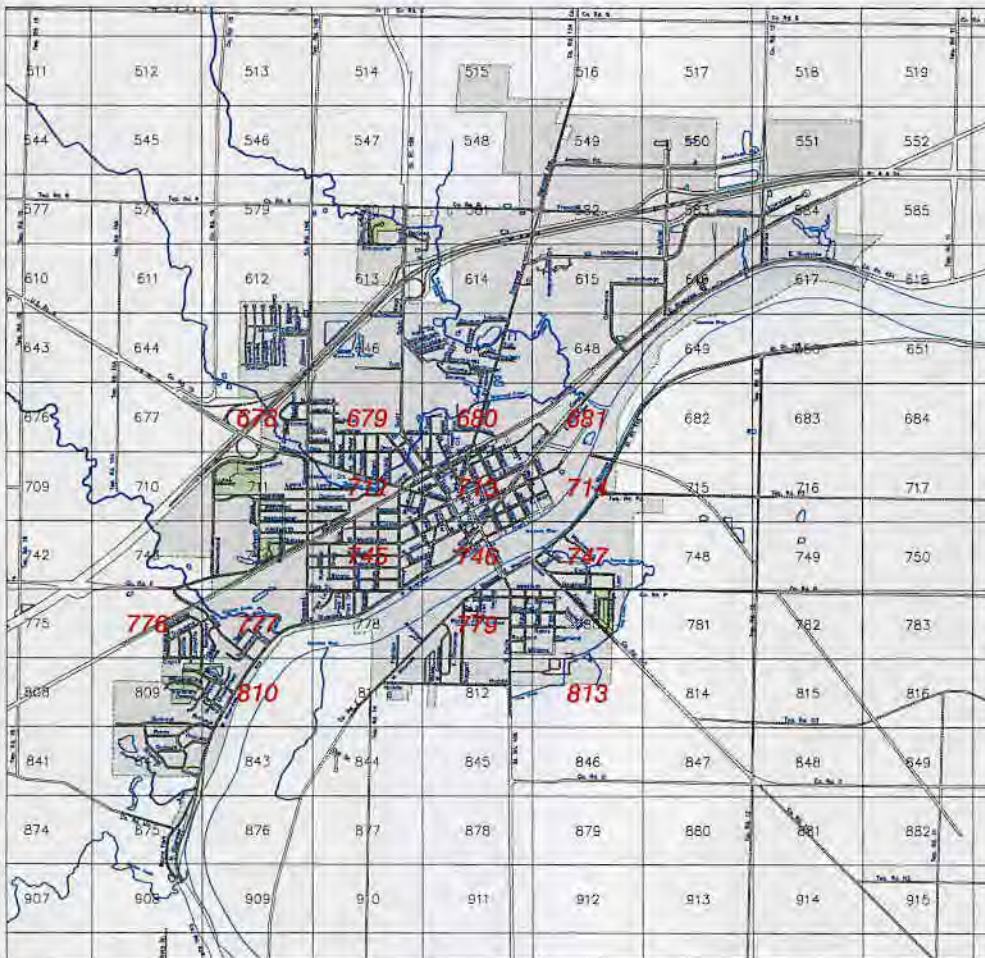

Scott Hoover

Water Treatment Plant Superintendent

DDAGW - NWDO

A detailed street map of a residential neighborhood in St. Louis, Missouri. The map shows a grid of streets including S. Perry St., S. Park St., S. Grand St., and S. Grand Blvd. A red line highlights a specific street layout, possibly indicating a proposed change or a specific route. The map also shows various residential lots, buildings, and a large open area on the left side. The map is oriented with North at the top.
