**Subject: American Landfill, Stark County  
Ohio Administrative Code (OAC) Rule 3745-27-10(D)(2) and Rule  
3745-27-10(E)(4) Approvals**

Dear Mr. Ali:

On March 23, 2017, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Northeast District Office (NEDO) received a request, dated March 22, 2017, titled "American Landfill, Stark County, Request for Director's Approval to Delete EDB and DBCP, OAC 3745-27-10(D)(2)(b) and (E)(4)(g) Demonstration." The document was submitted in accordance with OAC Rule 3745-27-10(D)(2) and OAC Rule 3745-27-10(E)(4) by Eagon & Associates Inc., on behalf of American Landfill, Inc., and requested to remove 1,2-Dibromo-3-chloropropane (DBCP) and 1,2-Dibromoethane (EDB) from the list of Appendix I ground water monitoring parameters to be analyzed in monitoring wells at American Landfill (Facility), located at 7916 Chapel St SE, Waynesburg, Ohio.

Pursuant to OAC Rule 3745-27-10(D)(2), the owner or operator of a sanitary landfill facility may propose in writing to delete any of the Appendix I parameters monitored to meet the requirements of paragraphs (D)(5) to (D)(7) of OAC Rule 3745-27-10. The Director of Environmental Protection may approve an alternative list of monitoring parameters if the removed parameters are not reasonably expected to be in or derived from the waste contained or deposited in the sanitary landfill facility. Upon approval, the owner or operator may use the alternative list.

Pursuant to OAC Rule 3745-27-10(E)(4), after sampling in accordance with paragraph (E)(4)(a) of this rule, the owner or operator may delete EDB and DBCP from the constituents used to meet paragraph (E) of this rule upon demonstration that there has never been a confirmed detection of EDB or DBCP in the ground water at the sanitary landfill facility.

I have reviewed the applicable information and approve the alternative list removing DBCP and EDB from further ground water monitoring at the Facility. The Facility shall continue monitoring all wells in the monitoring system for the remaining parameters listed in Appendix I in accordance with OAC Rule 3745-27-10, unless otherwise authorized by Ohio EPA.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00 made payable to "Treasurer, State of Ohio." The Commission, in its discretion, may reduce the fee if by affidavit it is demonstrated that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission  
30 East Broad Street, 4<sup>th</sup> Floor  
Columbus, Ohio 43215
