Re: Retriev Technologies, Inc; Permit — Intermediate; Public Response; RCRA C – Hazardous Waste; Fairfield County; OHD071654958

Project: Retriev Technologies, Inc., Renewal Permit and Class 3B Modification
Ohio EPA ID #: OHD071654958

Agency Contacts for this Project

Division Contact: Andy Maneff, DERR/CDO, (614)728-3884, peter.maneff@epa.ohio.gov

Public Involvement Coordinator: Kristopher Weiss, PIC, (614) 644-2160, kristopher.weiss@epa.ohio.gov

Ohio EPA held a comment period beginning October 3, 2017, regarding the draft issuance of a permit renewal and class 3B permit modification. This document summarizes the comments and questions received during the associated comment period, which ended November 7, 2017.

Ohio EPA reviewed and considered all comments received during the public comment period. By law, Ohio EPA has authority to consider specific issues related to the protection of the environment and public health. Often, public concerns fall outside the scope of that authority. For example, concerns about zoning issues are addressed at the local level. Ohio EPA may respond to those concerns in this document by identifying another government agency with more direct authority over the issue.

In an effort to help you review this document, the questions are grouped by topic and organized in a consistent format.

Comments from Retriev Technologies

Comment 1: A typographical error was identified in the application, which was carried into the draft permit. The battery type Nickel Metal “Hydride” was misspelled as Nickel Metal “Hydroxide” in Section 4.4 of the main text and Section 3.3 of the closure plan within the application. The typographical error in the draft permit appears in Module C.1(a) on page 29 of 43.
Response 1: Module C. 1 (a) of the permit and Sections 4.4 and 3.3 of the application have been updated to reflect this correction.
