## PERMIT SUMMARY

This permit approval (PTI Number 1221257) for Rumpke Sanitary Landfill (Facility) authorizes an increase in the Facility's authorized maximum daily waste receipt (AMDWR) from 10,000 tons to 12,500 tons. The previous AMDWR was established by PTI Number 05-11554, approved December 30, 2004.

Based on the AMDWR of 12,500 tons, the total facility airspace will provide an estimated facility life of approximately 4.4 years. Based on the Facility's average anticipated daily gate receipt of 10,000 tons, the estimated life of the Facility will be approximately 5.5 years.

The above summary is provided solely for informational purposes and does not constitute a part of, or otherwise affect, the attached permit-to-install.

## PERMIT CONDITIONS

1. The Facility's AMDWR is hereby established to be 12,500 tons. This supersedes any previously established AMDWR for the Facility. This approval shall apply only to the increase in the Facility's AMDWR.
2. The director, or an authorized representative, may enter upon the premises of the above-named applicant (permittee) at any reasonable time during construction and operation for the purpose of making inspections, conducting tests, or examining records or reports pertaining to the construction, modification, or installation of the above described source of environmental pollutants (municipal solid waste disposal facility).
3. Issuance of this permit approval does not relieve the permittee of the duty to comply with all applicable federal, state, and local laws, ordinances, and regulations.
4. This permit approval may be modified, or alternatively revoked and reissued, to comply with any revisions to OAC Chapter 3745-27 applicable to this municipal solid waste disposal facility.
5. The permittee shall provide for the proper maintenance and operation of the municipal solid waste disposal facility in accordance with the provisions of OAC Chapter 3745-27.
6. Nothing in this permit approval shall be construed to authorize any waiver from the requirements of any applicable federal or state laws or regulations. This permit approval shall not be interpreted to release the permittee from responsibility under Ohio Revised Code (ORC) Chapters 3704, 3714, 3734, or 6111; under the Federal Clean Water Act, the Resource Conservation and Recovery Act, or the Comprehensive Environmental Response, Compensation, and Liability Act; or from other applicable requirements for remedying conditions resulting from any release of contaminants to the environment.

7. This permit approval does not authorize the acceptance of any asbestos or asbestos-containing waste material that is subject to the provisions of NESHAP, 40 CFR Part 61, Subpart M. No such asbestos or asbestos-containing waste material may be accepted without the necessary permits from Ohio EPA.
8. This permit approval does not authorize the acceptance of any hazardous or infectious wastes, except for those excluded from hazardous waste or infectious waste regulation by ORC Chapter 3734.
9. The permittee shall comply with the requirements of all previously-issued authorizing documents for the Facility, except, to the extent that this permit approval specifies requirements different from or in addition to the requirements of those previously-issued authorizing documents for the Facility, the permittee shall comply with this permit. This permit, and the terms and conditions contained herein, shall take precedence over any conflicting requirements.
