Dear Mr. Scott Cameron:

This letter is to inform you that on January 10, 2020, your Title V permit application was received at Ohio EPA DAPC, Northeast District Office. We have completed a preliminary review of your application and have determined that the application is complete. This completeness review does not imply that the application is approvable, only that we have enough information to continue the review.

The next step in the processing of the application is for this office to complete a technical review. The technical reviews are generally completed on a first-come, first-served basis. During the technical review, we may contact you for additional information or clarification. The application will be processed once the detailed technical review is complete.

Please be assured that we will do everything possible to process your application in a timely manner. If you have any questions concerning this letter or your application, please contact me at (330) 963-1298, or by email at Lawrence.Maline@epa.ohio.gov.

Sincerely,

Lawrence Maline
