**OHIO EPA ISSUES FINAL VARIANCE FROM CLASSIFICATION AS A WASTE**

Notice is hereby given that on June 11, 2021, the Director of Ohio EPA approved a Variance from classification as a waste modification (Variance) to AMG Vanadium LLC (AMG), for its facility located at 2295 Innovation Way, Zanesville, Ohio 43701 in Muskingum County. The EPA Identification Number for this facility is OHR 000 212 902.

On September 30, 2020, a Variance was issued to allow AMG to store spent catalyst before recycling without obtaining a permit.

On January 19, 2021, AMG requested to modify the Variance to refine language regarding the use of bill of lading, add an exemption from the definition of solid waste K171 and K172 when in transit between AMG owned/operated facilities, and update the Variance application to reflect the authorized storage capacity in RMSBs is based on the financial assurance and may be less than the total design storage capacity.

To issue this modified Variance, Ohio EPA determined that the Variance application is complete and complies with Ohio EPA rules, specifically evaluating factors found in rule 3745-50-24(C) of the Ohio Administrative Code.

You are hereby notified that this action of the Director of Ohio EPA (Director) is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code.
