**Subject: Westlake Landfill, Cuyahoga County
Ohio Administrative Code (OAC) Chapter 513 Authorization**

Dear Mr. Stuhm:

On May 21, 2021, the Ohio Environmental Protection Agency (Ohio EPA), Division of Materials and Waste Management (DMWM), Northeast District Office (NEDO) received an application titled, *Application for Rule 513 Activities, Former Westlake Sanitary Landfill* (Application), dated May 21, 2021. The Application was submitted by EARTH Consulting Ltd, on behalf of the City of Westlake (City), for the closed Westlake Landfill (Facility) located at near the intersection of Bassett Road and Ranney Parkway, Cuyahoga County, Ohio.

OAC Rule 3745-513-20(A) requires authorization from the director of Ohio EPA (director) before engaging in filling, grading, excavating, building, drilling, or mining on land where a solid waste facility was operated (Chapter 513 activities). The Facility operated as a municipal solid waste landfill from 1958 to 1979. The City plans to install a scoreboard within the limits of waste placement including an electrical line approximately two feet below the surface. The limited excavation needed for the footers and electric line will be within the cap, above the waste. Therefore, it is not anticipated that waste will be encountered by the proposed activities.

Based upon a review of the Application submitted in accordance with the requirements of OAC Rule 3745-513-300, I have determined, pursuant to OAC Rule 3745-513-20(A), that the proposed activities, if conducted in accordance with the Application as submitted on May 21, 2021 and the following conditions, will not result in violation of applicable laws and regulations, will not create a nuisance, and are unlikely to adversely affect public safety or health or the environment. Therefore, the City of Westlake is hereby authorized to perform the activities outlined in this letter in accordance with the plans, specifications, and information submitted as part of the Application.

As part of this approval, the City of Westlake is subject to the following conditions:

CONDITIONS

General Conditions:

1. This approval grants authorization to perform activities at the Facility in accordance with the Application as submitted on May 21, 2021. There may be no deviation from the approved plans without prior written authorization from Ohio EPA. Any future activities at the Facility may require additional Ohio EPA approval.
2. Not later than 72 hours prior to the start of the activities associated with this authorization, the City of Westlake shall submit written notification, which specifies the anticipated date of commencement, to Ohio EPA, DMWM, NEDO and Cuyahoga County Board of Health.
