**RE: W.H. Sammis Power Plant
NPDES Permit #0IB00010
Notice of Planned Participation under 40 CFR 423 – Steam Electric Power
Generating Point Source Category**

To Whom It May Concern,

This letter serves as Notice of Planned Participation under 40 CFR 423 – Steam Electric Power Generating Point Source Category. Under the Reporting and Recordkeeping Requirements of 40 CFR 423.19, W.H. Sammis Power Plant (Sammis) is hereby notifying the permitting authority that the facility plans to achieve permanent cessation of coal combustion of the Plant's operating units by December 31, 2028. This notice includes the following in accordance with 40 CFR 423.19(f)(2):

Expected Date that each electric generating unit is projected to achieve permanent cessation of coal combustion:

RESPONSE: Operating Units 5-7 by December 31, 2028. Operating Units 1-4 were previously retired and will not be re-activated.

Whether the date above represents a retirement or a fuel conversion:

RESPONSE: Retirement for all units.

Whether each retirement or fuel conversion has been approved by a regulatory body:

RESPONSE: N/A – Sammis is not regulated under the Public Utilities Commission of Ohio.

Include a copy of the most recent integrated resource plan for which the applicable state agency approved the retirement or repowering of the unit subject to the ELGs:

RESPONSE: N/A – Sammis is not regulated under the Public Utilities Commission of Ohio.

Certification of EGU cessation under 40 CFR 257.103(b) or other documentation supporting that the EGU will permanently cease the combustion of coal by December 31, 2028:

RESPONSE: With this notice, Sammis is hereby notifying the OEPA that the EGUs at Sammis Units 5-7 will permanently cease the combustion of coal by December 31, 2028.

Timeline to achieve the permanent cessation of coal combustion (include interim milestones and the projected dates of completion):

RESPONSE:

- October 13, 2021** – Notification to OEPA of boiler cessation (this letter).
- October 13, 2021** – The Plant's current discharge limits match the USEPA's 2020 Rule Revision's specified limits. The Plant's operations comply with the 2020 Rule.
- December 31, 2025** – Latest date to meet new ELG limits.
- December 31, 2028** – Boiler cessation.

If you have any questions or require additional information, please contact the Plant Director, Christopher Cox ((740) 537-6306 or ChristopherCox@energyharbor.com) or Glenn Truzzi (330-730-9321 or gtruzzi@energyharbor.com).

Sincerely,

Jay K. Bellingham, P.E.
