**Re: Premier Container
Director's Final Findings and Orders (DFFO)
DFFO
RCRA C - Hazardous Waste
Cuyahoga County
OHR000210195**

Subject: Final Findings and Orders of the Director

Dear Sir or Madam:

Transmitted herewith are the Final Findings and Orders of the Director concerning the matter indicated for Premier Container, Inc.

Enclosed is the invoice for the total penalty amount of \$5,000.00 required by the orders. The penalty payment(s) shall be made by official check(s) made payable to "Treasurer, State of Ohio."

If you have any questions, please contact Elissa Miller at (614) 644-3037.

Sincerely,

Tonya Andrews

Tonya Andrews, Administrative Professional 3
Division of Environmental Response and Revitalization

**BEFORE THE
OHIO ENVIRONMENTAL PROTECTION AGENCY**

12/8/2021

In the Matter of:

Premier Container, Inc.
4500 Crayton Avenue
Cleveland, Ohio 44104

Respondent

**Director's Final
Findings and Orders**

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Premier Container, Inc. (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) § 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(P).
2. Respondent operates a business where empty containers as described in OAC rule 3745-51-07 (commonly referred to as RCRA-empty containers) are accepted to be cleaned, stored, and re-supplied to other businesses at a property located at 4500 Crayton Avenue, Cleveland, Cuyahoga County, Ohio, 44104 (Facility) and has been assigned U.S. EPA identification number OHR000210195.

3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(H) and 3745-51-03. The hazardous waste generated at the Facility includes container cleanout/rinseate waste which exhibits the characteristics of hazardous waste for ignitability (D001), corrosivity (D002), toxicity (D005 – Barium, D006 – Cadmium, D007 – Chromium, D008 – Lead, and D010 – Selenium) and a listed hazardous waste F003 (listed due to ignitability), as described in OAC rules 3745-51-21, 3745-51-22, 3745-51-24 and 3745-51-31. Ohio EPA has determined that Respondent is subject to the hazardous waste laws and rules applicable to a Large Quantity Generator (LQG) of hazardous waste as defined in OAC rule 3745-50-10(L).
4. On June 15, 2020, a complaint was received by Ohio EPA which alleged that Respondent was storing over 3,000 containers of hazardous waste on-site and discharging waste to the sewer.
5. On June 19, 23 and 24, 2020, Ohio EPA conducted a virtual compliance inspection of the Facility in response to the complaint referenced in Finding No. 4. of these Orders. During the inspection, Ohio EPA found the complaint to be unfounded.
6. On July 14, 2020, Ohio EPA received an unmanifested waste report from a contractor stating that on June 1, 2020, Respondent transported hazardous waste to the contractor's facility, which is not authorized to receive hazardous waste from off-site. Upon arrival, two 275-gallon totes of waste were determined to exhibit the hazardous waste characteristics of toxicity for D005 (barium), D006 (cadmium) and D007 (chromium) as described in OAC rule 3745-51-24. The contractor transported the two 275-gallon totes of hazardous waste to an authorized facility.
7. On July 16, 2020, Ohio EPA informed Respondent in an electronic mail of the unmanifested waste shipment referenced in Finding No. 6. of these Orders. In the electronic mail, Ohio EPA informed Respondent that a review of previous waste shipments made by Respondent had been completed. Based upon this review, Ohio EPA discovered that on March 22, 2019, Respondent shipped 40 drums of waste as non-hazardous waste to a hazardous waste permitted facility. Six of those drums were determined to be characteristically hazardous for D001 (ignitability). Additionally, a manifest from April 12, 2019, indicated that one drum of waste shipped as non-hazardous waste to a hazardous waste permitted facility, was determined to exhibit a characteristic of a hazardous waste for D002 (corrosivity). Ohio EPA requested Respondent provide information regarding Respondent's standard operating procedures (SOPs) regarding hazardous waste management at the Facility, including procedures for making hazardous waste

determinations in accordance with OAC rule 3745-52-11.

8. On July 28, 2020, Ohio EPA received additional information from a contractor stating that on December 23, 2019, Respondent transported two 275-gallon totes of waste to the contractor's facility. Upon arrival, the two 275-gallon totes of waste were determined to exhibit the hazardous waste characteristic for D001 (ignitability). The hazardous waste was rejected back to Respondent.
9. Based upon the inspection referenced in Finding No. 5. of these Orders and the information detailed and referenced in Findings Nos. 6., 7. and 8. of these Orders, Ohio EPA determined that Respondent, *inter alia*:
 - a. Caused the unlawful transportation of hazardous waste to an unauthorized facility, in violation of ORC § 3734.02(F). Specifically, Respondent caused the unlawful transportation of hazardous waste on December 23, 2019, and again on June 1, 2020, to a facility not authorized to manage hazardous waste.
 - b. Failed to evaluate the wastes referenced in Findings Nos. 6., 7. and 8. of these Orders to determine if they were hazardous waste, in violation of OAC rule 3745-52-11.
 - c. Failed to use a manifest for the shipments of hazardous waste referenced in Findings Nos. 6., 7. and 8. of these Orders, in violation of OAC rules 3745-50-20 to 3745-52-27; and
 - d. Failed to obtain a U.S. EPA identification number before shipping hazardous waste off-site, in violation of OAC rule 3745-52-12.
10. By letter dated August 19, 2020, Ohio EPA notified Respondent of the violations referenced in Finding No. 9. of these Orders.
11. On September 14, 2020, Ohio EPA received an application for a U.S. EPA identification number from Respondent.
12. On September 15, 2020, Respondent provided to Ohio EPA a response to the Notice of Violation (NOV) letter referenced in Finding No. 10. of these Orders. Specifically, Respondent implemented new protocols including operating in accordance with the regulations pertaining to LQGs. Respondent hired a consultant to help ensure Respondent addresses all applicable regulations. Additionally, Respondent stated that all shipments containing hazardous waste would be transported using a Uniform Hazardous Waste Manifest to ensure all waste is shipped properly.

13. By letter dated December 9, 2020, Ohio EPA notified Respondent that based upon the documentation provided by Respondent and referenced in Findings Nos. 11. and 12. of these Orders, the violations described in Findings Nos. 9.b., 9.c., and 9.d. of these Orders have been resolved.
14. On March 4, 2021, Ohio EPA requested in an electronic mail that Respondent provide information pertaining to hazardous waste shipments made from the Facility. Specifically, Ohio EPA requested additional information regarding any hazardous waste shipments made from the Facility between November 13, 2020, and March 4, 2021, and whether Respondent was complying with the LQG requirements.
15. On March 16, 2021, Respondent provided to Ohio EPA a response to the March 4, 2021, information request. In the response, Respondent indicated that a tote of waste had been rejected back to Respondent from a contractor on March 3, 2021. The contractor is a facility that is not authorized to accept hazardous waste and determined that the tote of waste exhibited the hazardous waste characteristic for ignitability (D001). As part of their response, Respondent provided to Ohio EPA documents to show the implementation of corrective actions for the violations discovered at the Facility and to show compliance with the LQG requirements. The documents provided included copies of hazardous waste personnel training, a contingency plan for the Facility, and hazardous waste accumulation area inspection logs.
16. On March 17, 2021, Ohio EPA requested additional information pertaining to the shipment of hazardous waste referenced in Finding No. 15. of these Orders, and the contingency plan, including a quick reference guide.
17. On March 25, 2021, Respondent provided to Ohio EPA a response to the March 17, 2021, information request. In the response, Respondent indicated that the tote of hazardous waste referenced in Finding No. 15. of these Orders was initially transported to the contractor on February 25, 2021. Respondent provided documentation including a photograph of the hazardous waste tote and a manifest demonstrating the tote was transported from Respondent's Facility to an authorized facility on March 22, 2021. Additionally, Respondent provided an updated contingency plan with a quick reference guide and updated inspection logs.
18. Based upon the information received from Respondent and referenced in Findings Nos. 15. and 17. of these Orders, Ohio EPA determined that Respondent, *inter alia*:

- a. Caused the unlawful transportation of hazardous waste to an unauthorized facility, in violation of ORC § 3734.02(F). Specifically, Respondent caused the unlawful transportation of a 275-gallon tote of hazardous waste on February 25, 2021, to a facility not authorized to manage hazardous waste.
 - b. Failed to evaluate the waste referenced in Finding No. 15. of these Orders to determine if it was hazardous waste, in violation of OAC rule 3745-52-11.
 - c. Failed to clearly label or mark a tote containing hazardous waste with the words "Hazardous Waste" in violation of OAC rule 3745-52-17(A)(5)(a)(i); and
 - d. Failed to use a manifest for the shipment of hazardous waste referenced in Finding No. 15. of these Orders, in violation of OAC rule 3745-50-20 to 3745-52-27.
19. By letter dated April 22, 2021, Ohio EPA notified Respondent that based upon the documentation provided by Respondent and referenced in Finding No. 17. of these Orders, the violations described in Findings Nos. 18.b., 18.c., and 18.d. of these Orders have been resolved.
20. On April 28, 2021, Ohio EPA received a complaint alleging that Respondent is mishandling and improperly storing hazardous waste at the Facility. The complainant provided photographs and video of the alleged operations.
21. On May 18, 2021, Ohio EPA conducted a in person complaint investigation and compliance inspection at the Facility in response to the complaint referenced in Finding No. 20. of these Orders. During the inspection, Ohio EPA observed approximately 345, 275-gallon totes being stored inside the Facility. These totes contain cleanout/rinseate from container cleaning operations and from RCRA-empty containers. Some of these containers had been at the Facility since 2019. Ohio EPA also observed approximately 105, 55-gallon steel drums containing solids from draining the totes during processing. Additionally, Ohio EPA observed four satellite accumulation area containers and four 55-gallon drums containing hazardous waste that were not properly labeled or dated. During the investigation, Ohio EPA requested Respondent provide photographs of corrective actions taken to address the satellite accumulation area and hazardous waste containers, provide analytical results of the approximately 345 totes of waste cleanout/rinseate, and evaluate all unlabeled and unidentified containers of waste.

22. On May 21 and 28, 2021, Respondent provided to Ohio EPA a response to the complaint investigation referenced in Finding No. 21. of these Orders. In the response, Respondent provided a description of the corrective actions taken to address the satellite accumulation area and hazardous waste containers including photographs of the labeled, marked and dated containers. Additionally, Respondent provided waste evaluation information pertaining to the cleanout/rinseate.
23. On June 21, 2021, Ohio EPA received an unmanifested waste report from a contractor stating that on June 1, 2021, Respondent transported hazardous waste to the contractor's facility. Upon arrival, 12 of 16, 275-gallon totes were determined to exhibit the hazardous waste characteristics for toxicity (D005 – Barium, D006 – Cadmium, D007 – Chromium, D008 – Lead, and D010 – Selenium) as described in OAC rule 3745-51-24. The contractor transported the 12 totes of hazardous waste to an authorized facility on June 14, 2021.
24. Between June 22 and 28, 2021, Ohio EPA conducted several follow-up discussions via electronic mail and telephone conference with Respondent regarding waste evaluation information and the waste rejected by the contractor as referenced in Finding No. 23. of these Orders.
25. On June 28, 2021, Ohio EPA received an unmanifested waste report from a contractor stating that on June 8, 2021, Respondent transported hazardous waste to the contractor's facility. Upon arrival, nine of 16, 275-gallons totes were analyzed and rejected back to Respondent. Subsequent sampling and analysis identified as many as six totes were determined to exhibit the hazardous waste characteristics for toxicity (D005 – Barium, D006 – Cadmium, and D007 – Chromium) as described in OAC rule 3745-51-24. The contractor rejected the nine totes back to Respondent on June 21, 2021.
26. On July 1, 2021, Ohio EPA discussed with Respondent via telephone conference analytical results of waste transported off-site and the waste rejected back to Respondent and referenced in Finding No. 25. of these Orders.
27. On July 12, 2021, Ohio EPA received an unmanifested waste report from a contractor stating that on June 11, 2021, Respondent transported hazardous waste to the contractor's facility. Upon arrival, 10 of 16, 275-gallons totes were determined exhibit the hazardous waste characteristics for toxicity (D005 – Barium, D006 – Cadmium, D007 – Chromium, D008 – Lead, and D010 – Selenium) as described in OAC rule 3745-51-24. The contractor rejected the 10 totes back to Respondent on June 24, 2021.

28. Based upon the inspection referenced in Finding No. 21. of these Orders, the information received from Respondent and referenced in Finding No. 22. of these Orders, and the unmanifested waste reports received from Respondent's contractor and referenced in Findings Nos. 23., 25., and 27. of these Orders, Ohio EPA determined that Respondent, *inter alia*:
- a. Caused the unlawful transportation of hazardous waste to an unauthorized facility, in violation of ORC § 3734.02(F). Specifically, Respondent caused the unlawful transportation of at least as many as six 275-gallon totes of hazardous waste on June 8, 2021, to a facility not authorized to manage hazardous waste.
 - b. Failed to evaluate the wastes referenced in Findings Nos. 23., 25., and 27. of these Orders to determine if they were hazardous waste, in violation of OAC rule 3745-52-11.
 - c. Failed to use a hazardous waste manifest for the shipment of hazardous waste referenced in Finding No. 25. of these Orders, in violation of OAC rules 3745-50-20 to 3745-52-27.
 - d. Failed to evaluate approximately 345, 275-gallon totes of cleanout/rinseate and approximately 105, 55-gallon steel drums of solids referenced in Finding No. 21. of these Orders to determine if they were hazardous waste, in violation of OAC rule 3745-52-11.
 - e. Failed to mark or label four, 55-gallon satellite accumulation area containers with the words "Hazardous Waste" in violation of OAC rule 3745-52-15(A)(5)(a).
 - f. Failed to mark or label one, 55-gallon satellite accumulation area container with an indication of the hazards of the contents, in violation of OAC rule 3745-52-15(A)(5)(b).
 - g. Failed to mark or label one, 55-gallon container holding the excess accumulation of hazardous waste with the date the excess amount began accumulating, in violation of OAC rule 3745-52-15(A)(6)(c).
 - h. Failed to mark or label four, 55-gallon containers with the words "Hazardous waste," an indication of the hazards of the contents, and the date upon which the accumulation period began, in violation of OAC rule 3745-52-17(A)(5)(a).

29. By letter dated July 15, 2021, Ohio EPA notified Respondent of the violations referenced in Finding No. 28. of these Orders. Additionally, based upon documentation provided by Respondent and referenced in Finding No. 21 of these Orders, this letter also notified Respondent that the violations described in Findings Nos. 28.c., 28.e., 28.f., 28.g., and 28.h. of these Orders have been resolved.
30. On September 7, 2021, Respondent transported hazardous waste to a contractor's facility. Upon arrival, one 275-gallon tote was determined to exhibit the hazardous waste characteristic for ignitability (D001) as described in OAC rule 3745-51-21. Additionally, one 330-gallon tote was determined to exhibit the hazardous waste characteristic for corrosivity (D002) as described in OAC rule 3745-51-22. Ohio EPA determined that Respondent caused the unlawful transportation of hazardous waste to an unauthorized facility, in violation of ORC § 3734.02(F).
31. On September 14, 2021, the two totes of hazardous waste referenced in Finding No. 30. of these Orders were transported to an authorized facility.
32. Because the hazardous waste referenced in Findings Nos. 6., 7., 8., 15., 23., 25., 27., and 30. of these Orders was transported to a permitted facility, and Respondent implemented new protocols including operating in accordance with the regulations pertaining to LQGs and ensuring proper transportation of hazardous wastes, the Director has determined that there is no further action required of Respondent at this time regarding the violations referenced in Findings Nos. 9.a., 18.a., 28.a., and 30. of these Orders and those violations are resolved.

V. ORDERS

Respondent shall achieve compliance with Chapter 3734. of the ORC and the regulations promulgated thereunder according to the following compliance schedule:

1. Within 75 days of the effective date of these Orders, Respondent shall evaluate all wastes contained in the totes described in Finding No. 21. of these Orders in accordance with OAC rule 3745-52-11. Respondent shall submit weekly updates to Ohio EPA via electronic mail by Friday identifying:
 - a. Which totes have been sampled;
 - b. Which totes Respondent has received analytical results for; and
 - c. Which totes have been identified as containing hazardous waste.

2. Within 130 days of the effective date of these Orders, Respondent shall evaluate all wastes contained in the drums described in Finding No. 21. of these Orders in accordance with OAC rule 3745-52-11. Respondent shall submit weekly updates to Ohio EPA via electronic mail by Friday identifying:
 - a. Which drums have been sampled;
 - b. Which drums Respondent has received analytical results for; and
 - c. Which drums have been identified as containing hazardous waste.
3. Within 30 days of receipt of analytical that identifies a tote/drum containing hazardous waste, Respondent shall transport the identified tote(s)/drums(s) off-site to an authorized facility. Respondent shall submit copies of the hazardous waste manifests to Ohio EPA for review. Adequate waste characterization of all totes/drums identified in Finding No. 21. of these Orders, and the transportation of all identified hazardous waste to an authorized facility will resolve the violation referenced in Findings Nos. 28.b. and 28.d. of these Orders.
4. Respondent shall pay Ohio EPA the amount of \$5,000.00 in settlement of Ohio EPA's claims for civil penalties, which may be assessed pursuant to ORC Chapter 3734. and will be deposited into the environmental protection remediation fund established pursuant to ORC § 3734.281 pursuant to the following schedule:
 - a. On or within 90 days after the effective date of these Orders, Respondent shall pay to Ohio EPA the amount of \$1,250.00.
 - b. On or within 180 days after the effective date of these Orders, Respondent shall pay to Ohio EPA the amount of \$1,250.00.
 - c. On or within 270 days after the effective date of these Orders, Respondent shall pay to Ohio EPA the amount of \$1,250.00.
 - d. On or within 365 days after the effective date of these Orders, Respondent shall pay to Ohio EPA the amount of \$1,250.00.
5. Payments shall be made by an official check made payable to "Treasurer, State of Ohio". The official checks shall be submitted to Ohio EPA, Office of Fiscal Administration, Department L-2711, Columbus, Ohio 43260-2711, together with a letter identifying the Respondent. Notification of penalty payment shall be sent to the Hazardous Waste Program Compliance Assurance Manager, Ohio EPA, Division of Environmental Response and Revitalization, P.O. Box 1049,

Columbus, Ohio 43216-1049 or via electronic mail at
Mitchell.Mathews@epa.ohio.gov.

VI. TERMINATION

Respondent's obligations under these Orders shall terminate when Respondent certifies in writing and demonstrates to the satisfaction of Ohio EPA that Respondent has performed all obligations under these Orders and the Chief of Ohio EPA's Division of Environmental Response and Revitalization acknowledges, in writing, the termination of these Orders. If Ohio EPA does not agree that all obligations have been performed, then Ohio EPA will notify Respondent of the obligations that have not been performed, in which case Respondent shall have an opportunity to address any such deficiencies and seek termination as described above.

The certification shall contain the following attestation: "I certify that the information contained in or accompanying this certification is true, accurate and complete."

This certification shall be submitted by Respondent to Ohio EPA and shall be signed by a responsible official of Respondent. For purposes of these Orders, a responsible official is a [e.g., corporate officer] who is in charge of a principal business function of Respondent.

VII. OTHER CLAIMS

Nothing in these Orders shall constitute or be construed as a release from any claim, cause of action or demand in law or equity against any person, firm, partnership, or corporation, not a party to these Orders, for any liability arising from, or related to, the operation of Respondent's Facility.

VIII. OTHER APPLICABLE LAWS

All actions required to be taken pursuant to these Orders shall be undertaken in accordance with the requirements of all applicable local, state, and federal laws and regulations. These Orders do not waive or compromise the applicability and enforcement of any other statutes or regulations applicable to Respondent.

IX. MODIFICATIONS

These Orders may be modified by agreement of the parties hereto. Modifications shall be in writing and shall be effective on the date entered in the journal of the Director of Ohio EPA.

X. NOTICE

All documents (except penalty payment checks) required to be submitted by Respondent pursuant to these Orders shall be addressed to:

Ohio Environmental Protection Agency
Northeast District Office
Division of Environmental Response and Revitalization
2110 East Aurora Road
Twinsburg, Ohio 44087
Attn: Hazardous Waste Program Manager

and Ohio EPA Central Office at the following address:

For mailings, use the post office box number:

Manager, Hazardous Waste Compliance Assurance Section
Ohio Environmental Protection Agency
Lazarus Government Center
Division of Environmental Response and Revitalization
P.O. Box 1049
Columbus, Ohio 43216-1049

For deliveries to the building:

Manager, Hazardous Waste Compliance Assurance Section
Ohio Environmental Protection Agency
Lazarus Government Center
Division of Environmental Response and Revitalization
50 West Town Street
Columbus, Ohio 43215

or to such persons and addresses as may hereafter be otherwise specified in writing by Ohio EPA.

For electronic mail delivery, submit documents to the following email addresses:

Mitchell.mathews@epa.ohio.gov
Natalie.oryshkewych@epa.ohio.gov

XI. RESERVATION OF RIGHTS

Ohio EPA and Respondent each reserve all other rights, privileges and causes of action, except as specifically waived in Section XII. of these Orders.

XII. WAIVER

In order to resolve disputed claims, without admission of fact, violation or liability, and in lieu of further enforcement action by Ohio EPA for only the violations cited in these Orders, Respondent consents to the issuance of these Orders and agrees to comply with these Orders. Compliance with these Orders shall be in full accord and satisfaction for Respondent's liability for the violations specifically cited herein.

Respondent hereby waives the right to appeal the issuance, terms and conditions, and service these Orders, and Respondent hereby waives any and all rights Respondent may have to seek administrative or judicial review of these Orders either in law or equity.

Notwithstanding the preceding, Ohio EPA and Respondent agree that if these Orders are appealed by any other party to the Environmental Review Appeals Commission, or any court, Respondent retains the right to intervene and participate in such appeal. In such an event, Respondent shall continue to comply with these Orders notwithstanding such appeal and intervention unless these Orders are stayed, vacated, or modified.

XIII. EFFECTIVE DATE

The effective date of these Orders is the date these Orders are entered into the Ohio EPA Director's journal.

XIV. SIGNATORY AUTHORITY

Each undersigned representative of a party to these Orders certifies that he or she is fully authorized to enter into these Orders and to legally bind such party to these Orders.
