Ohio EPA Division of Air Pollution Control (DAPC) Local Air Agency #16

Subject: Notice of Compliance - 2024 Full Compliance Evaluation

Dear Herb Hurst:

Thank you for accompanying me on June 21, 2024 during the Akron Regional Air Quality Management District's full compliance evaluation of the LG Chem Ohio Petrochemical (LGCOP) facility located in Ravenna, Ohio. The goal of the inspection was to determine your facility's compliance with Ohio's air pollution control laws as found in Chapter 3704 of the Ohio Revised Code (ORC), Chapter 3745 of the Ohio Administrative Code (OAC), and the terms and conditions of LGCOP's air permit.

No violations were found during this inspection. Please be advised that this determination is only associated with those areas of the operations that were inspected or documentation reviewed and does not constitute a waiver of potential violations not discovered or existing violations currently under enforcement.

Should you have any questions, please do not hesitate to contact me by phone at (330) 812-3954 or email at kkanoza@schd.org.

Sincerely,

Kelly Kanoza
Air Quality Engineer
