Pursuant *Part III Notifications to Ohio EPA* of the January 24, 2023, authorization letter, a project construction update report shall be submitted to Ohio EPA by December 31 of each year following the date of this permit and until project construction is complete. This letter serves as the Annual Update Report to the Ohio EPA for the 2024 Reporting Year. It is anticipated that construction activities will be completed in 2025. Upon completion of construction, an as-built drawing will be submitted as part of the 2025 Annual Update Report.

The filling activities of Blatz Lake, a Water of the State, was completed in 2023. A summary of the authorized isolated wetland impact year to date is presented below in **Table 1** and depicted in **Figure 1** (enclosed).
